the end of the cold war brought about new secessionist aspirations and the strengthening and re awakening of existing or dormant separatist claims everywhere the creation of a new independent entity through the separation of part of the territory and population of an existing state raises serious difficulties as to the role of international law this book offers a comprehensive study of secession from an international law perspective focusing on practice and applicable rules of international law it includes theoretical analyses and a scrutiny of

practice throughout the world by eighteen distinguished authors from western and eastern europe north and sub saharan africa north and latin america and asia core questions are addressed from different perspectives and in some cases with divergent views the reader is also exposed to a far reaching picture of state practice including some cases which are rarely mentioned and often neglected in scholarly analysis of secession

el estado puede lesionar los bienes e intereses jurídicos internacionalmente protegidos sirviéndose de un entramado complejo de actores que interactúan en el contexto internacional y que aumentan de forma exponencial a las tradicionales bandas armadas grupos rebeldes o mercenarios se han venido a sumar las empresas militares y de seguridad privadas señores de la guerra y células terroristas ante esta realidad en el ámbito de la responsabilidad internacional del estado el reto del derecho internacional contemporáneo es contar con principios y normas jurídicas para determinar cuándo el estado se encuentra detrás de una actuación en principio privada y en qué grado ese comportamiento es merecedor de reproche en el ordenamiento jurídico internacional en este contexto la presente obra tiene por objeto conocer cuándo en qué circunstancias y con qué condiciones puede realizarse la atribución al estado del comportamiento de los particulares con dicho fin la misma se divide en dos partes la primera de la práctica a la teoría analiza los principios fundamentales de carácter consuetudinario que rigen la responsabilidad internacional del estado en lo que atañe al comportamiento privado de un lado el principio de no atribución al estado del comportamiento de los particulares y de otro el principio conforme al cual al estado se le atribuye el comportamiento de los particulares que actúan en su nombre el estudio de ambos principios parte del examen de la jurisprudencia y de la práctica estatal para explorar con posterioridad su concreción en el proyecto de la comisión de derecho internacional la segunda de la teoría a la práctica se centra en el estudio de la jurisprudencia internacional más reciente en ella se examina en un primer momento la responsabilidad en la que puede incurrir el estado por la conducta de los particulares en el marco de los mecanismos regionales de protección de los derechos humanos y seguidamente se analizan los distintos grados de control manejados por los órganos judiciales como criterios para considerar como hecho del estado el acto de los particulares este análisis se realiza con un doble objetivo determinar por una parte cuál de ellos es más acorde con la lógica del derecho de la responsabilidad internacional del estado y por otra perfilar desde un plano teórico las soluciones que podrían articularse para cubrir los diferentes supuestos fácticos que se dan en la práctica internacional

el derecho ambiental está integrado en su nivel normativo por las fuentes tradicionales y comunes a cualquier otra rama del ordenamiento jurídico el marco jurídico internacional ha sido reconocido como una de sus principales fuentes hasta el punto de señalarse que define hoy en día el criterio o pauta de la civilización ambiental si la declaración universal de los derechos del hombre define la frontera que separa un estado de civilización y otro de barbarie las normas internacionales en materia ambiental delimitan el ámbito del estado de civilización ecológica del estado de barbarie este cánón de civilización es para Jiménez de Parga la más importante de las funciones que despliegan estas normas por encima incluso de su propia fuerza jurídica
