this edition of sean o casey s major plays is designed specifically for students and teachers the plays are supported by a full introduction covering o casey s career and critical responses to the plays full notes and a bibliography

a multi volume series that surveys european drama from ancient greece to the mid twentieth century

a multi volume series that surveys european drama from ancient greece to the mid twentieth century

because gramophonic technology grew up alongside ireland s progressively more outspoken and violent struggles for political autonomy and national stability irish modernism inherently links the gramophone to representations of these dramatic cultural upheavals many key works of irish literary modernism like those by james joyce elizabeth bowen and sean o casey depend upon the gramophone for their ability to record irish cultural traumas both symbolically and literally during one of the country s most fraught developmental eras in each work the gramophone testifies of its own complexity as a physical object and its multiform value in the artistic development of textual material in each work too the object seems virtually self placed less an aesthetic device than a thing belonging primordially to the text the machine is also often an agent and counterpart to literary characters thus the gramophone points to a deeper connection between object and culture than we perceive if we consider it as only an image enhancement or instrument this book examines the gramophone as an object that refuses to remain in the background of scenes in which it appears forcing us to confront its mnemonic heritage during a period of irish history burdened with political and cultural turbulence
