what does it take to construct humanity s cultural history and what do these efforts produce in the world in the politics of world heritage elif kalaycioglu analyzes unesco s flagship regime which seeks to curate a cultural history of humanity attached to outstanding universal value and tethered to goals of peace and solidarity kalaycioglu s analysis tracks that construction across fifty years of the regime and maps it onto three distinct visions humanity as a rarified transhistorical subject humanity as a diverse subject and humanity as a subject that is adequately represented by the community of nation states in each of these constructions experts and states take up the cultural and historical resources that circulate within the regime to narrate a humanity into being and position themselves as its adjudicators contributors and custodians each construction comes with remainders that is parts of humanity excluded from this cultural history and internal hierarchies between those at its center and others that remain on the margins these hierarchies challenge the aspiration to peace and solidarity while these aspirations have changed across the three iterations of humanity across the different forms the regime s structures and participants have been ill equipped and hesitant to engage with the underbellies of humanity towards robust visions of peace and solidarity in contrast to this general tendency kalaycioglu excavates from select nomination files nested constructions of humanity that hold onto the globality and unevenness of its political conditions and presents the possibility of robust visions of peace and solidarity and

humanity's different futures

we have been witnessing a silent chemical revolution over the past half century pesticides bring widespread environmental contamination with residues detected far from their site of application these substances are playing havoc with the lives of humans and the environment because of their indiscriminate use pesticide risk assessment describes the environmental risks associated with the injudicious use of pesticides and their mixtures their methods of estimation and assessment and their regulation it also contains methods to reduce and minimize the risks associated with the use of pesticides the book examines pesticides their impact on the environment mode of action estimation methods risk assessment mixture toxicity alternatives for risk reduction and regulatory aspects includes global case studies detailing cases of pesticide poisoning and the health effects of exposure to pesticides covers risks to human health aquifers and aquatic organisms pollinators soil micro flora and fauna terrestrial organisms and wildlife suitable for anyone involved in pesticide application and integrated pest management this is essential reading for researchers scientists extension workers and policy makers

the crime of rape has been prevalent in all contexts whether committed during armed conflict or in peacetime and has largely been characterised by a culture of impunity international law through its branches of international human rights law international humanitarian law and international criminal law has increasingly condemned such violence and is progressively obliging states to prevent rape whether committed by a state agent or a private actor

in this collection leading international scholars provide their perspectives on the continuing role of the liberal paradigm both as a theoretical

approach to international relations and as an ordering principle of international politics

argues that north american settler colonialism included episodes of genocide of indigenous peoples as defined by the united nations genocide convention

this book represents the third in a series of springer textbooks on lifestyle medicine by dr mechanick and dr kushner the first book focused on theory and practice concepts the second book focused on implementation with a specific tactic of building a lifestyle medicine center this third book focuses on scientific evidence to close research gaps knowledge gaps and practice gaps the general intent is to imbue the field of lifestyle medicine with scientific evidence the other intent is to continue advancing a culture of preventive care for chronic disease using lifestyle medicine but again through a tactic of emphasizing science evidence and critical thinking lifestyle medicine closing research practice and knowledge gaps is organized into three sections in the first section driver based chronic disease models and other elements that pertain to lifestyle medicine are explored in terms of current levels of scientific substantiation in the second section educational modalities are presented that can improve awareness of scientific and experiential knowledge by healthcare professionals topics include innovative teaching models web based activities training and accreditation programs and certification exams in the third section a variety of clinical scenarios are presented to highlight practice gaps implementation issues where there is inadequate clinical action despite an awareness of the pertinent knowledge the topics span critical domains that must be addressed so that lifestyle medicine can lead to favorable outcomes in people and populations at risk these domains include alcohol and substance abuse colitis brain health environmental

risk pharmacotherapy de escalation routine change socioeconomic transculturalization advanced analytics home cardiac rehabilitation digital twin technology and a highly referenced discussion of the lifestyle medicine ecosystem and infrastructure care is taken to provide not only theoretical foundations but also case studies where appropriate to emphasize critical aspects in conclusion this third book on lifestyle medicine will complement the previous two springer books and define a compendium of resources necessary for anyone interested in this field

this informative text analyses the deficiencies of the existing counter terrorism legal framework and examines whether the statute of the international criminal court icc could provide an alternative and viable solution the major objective of the work is to assess whether acts usually referred to as terrorism in the common language present the elements of war crimes crimes against humanity genocide and aggression thereby falling within the jurisdiction of the icc amongst the highlights are a comparison between the definitions provided by existing international law and the recently adopted icc statute an analysis of the strengths and weaknesses of the principal international anti terrorism conventions and whether so called acts of terrorism may constitute war crimes crimes against humanity genocide and aggression both under traditional international law and the icc statute
