I believe that healthy eating is essential for everyone. I also believe that people have the right to choice when it comes to the food they eat. While I myself am not a vegetarian, it is my mission to help girls obtain adequate amounts of macronutrients and micronutrients while being able to fit in within their chosen dietary choices. This is why I have created this nutrition healthy eating and lifestyle plan to help for vegetarians. Within this ebook, I have made reference to and based my recommendations on three of the more common types of vegetarianism. Both myself and the accredited practising dietitians of npa Pty Ltd Nutrition Professionals Australia acknowledge that there are certain nutrients that are more difficult to obtain when following a vegetarian diet. For this reason, I have highlighted these and provided recommendations as to how to meet the required daily intake. I will begin by saying that being vegetarian means different things to different people. It is difficult to define because of this, I will highlight that there is not one meal plan or set of recommendations that will fit all individuals who have adopted this lifestyle. For this reason, I have provided you with four example menus to suit those following a pescatarian diet, four example menus to suit those following a lacto-ovo vegetarian diet, and six example menus for those following a vegan diet. As following a vegetarian diet restricts or removes foods from one or more food
