the epic story of the past present and future of world order that brilliantly kishore mahbubani author of living the asian century argues why the decline of the west may be a good thing for the world since the dawn of the twenty first century the west has been in crisis social unrest political polarization and the rise of other great powers especially china threaten to unravel today s western led world order many fear this would lead to global chaos but the west has never had a monopoly on order surveying five thousand years of global history political scientist amitav acharya reveals that world order the political architecture enabling cooperation and peace among nations existed long before the rise of the west moving from ancient sumer india greece and mesoamerica through medieval caliphates and eurasian empires into the present acharya shows that humanitarian values economic interdependence and rules of inter state conduct emerged across the globe over millennia history suggests order will endure even as the west retreats in fact the end of western dominance offers us the opportunity to build a better world where non western nations find more voice power and prosperity instead of fearing the future the west should learn from history and cooperate with the rest to forge a more

equitable order this is the definitive account of how world order evolved and why it will survive the decline of the west

recent events such as iran s green revolution and the arab uprisings have exploded notions that human rights are irrelevant to middle eastern and north african politics increasingly seen as a global concern human rights are at the fulcrum of the region s on the ground politics transnational intellectual debates and global political intersections the routledge handbook on human rights and the middle east and north africa emphasises the need to consider human rights in all their dimensions rather than solely focusing on the political dimension in order to understand the structural reasons behind the persistence of human rights violations explores the various frameworks in which to consider human rights conceptual political and transnational international discusses issue areas subject to particularly intense debate gender religion sexuality transitions and accountability contains contributions from perspectives that span from global theory to grassroots reflections emphasising the need for academic work on human rights to seriously engage with the thoughts and practices of those working on the ground a multidisciplinary approach from scholars with a wide range of expertise allows the book to capture the complex dynamics by which human rights have had or could have an impact on middle eastern and north african politics this book will therefore be a key resource for students and scholars of middle eastern and north african politics and society as well as anyone with a concern for human rights across the globe

working in an interdisciplinary manner is long pursued but a difficult goal of science and mathematics education the interdisciplinarity of science and mathematics can occur when connections between those disciplines are identified and developed these connections could be expressed in the educational policies curriculum or in the science and mathematics

teachers educational practices sometimes those connections are scarce but in other moments full integration is achieved the handbook of research on interdisciplinarity between science and mathematics in education presents results of good practices and interdisciplinary educational approaches in science and mathematics it presents a broad range of approaches for all educational levels from kindergarten to university covering topics such as computer programming mathematics in environmental issues and simple machines this major reference work is an excellent resource for administrators and educators of both k 12 and higher education government officials pre service teachers teacher educators librarians researchers and academicians

in a society that awaits the new in every medium what happens to last year's new from player pianos to vinyl records and from the typewriter to the telephone residual media is an innovative approach to the aging of culture and reveals that ultimately new cultural phenomena rely on encounters with the old

henry thomas buckle son of thomas henry buckle and jane middleton was born november 24 1821

this two volume handbook provides readers with a comprehensive interpretation of globality through the multifaceted prism of the humanities and social sciences key concepts and symbolizations rooted in and shaped by european academic traditions are discussed and reinterpreted under the conditions of the global turn highlighting consistent anthropological features and socio cultural realities the handbook gathers coherently structured articles written by 110 professors in the humanities and social sciences at bonn university germany who initiate a global dialogue on meaningful and sustainable notions of human life in the age of globality volume 1 introduces readers to various interpretations of globality and discusses notions of human development communication and

aesthetics volume 2 covers notions of technical meaning of political and moral order and reflections on the shaping of globality

a world list of books in the english language
