reader through the various supportive and opposing arguments providing his compelling conclusion that something of the nature of biblical theology remains necessary and that biblical scholarship would be much the poorer without it prior to retiring james barr was professor of hebrew bible emeritus at vanderbilt divinity school nashville his teaching career has also included professorships at edinburgh university princeton theological seminary manchester university and oxford university he has held visiting professorships and delivered major lecture series in europe the united states africa israel australia and new zealand

this book demonstrates a number of approaches made by biblical scholars to find a theology of the christian scripture it then considers attempts to bridge the gap between exegesis and dogmatics by appeal to the discipline of fundamental theology and the doctrine of revelation it finds that for all the interesting questions raised one is forced back to the bible from where one must form the themes and concepts which have been developed by theologians through the ages and which with help from biblical historical critics can be made to refresh theology and serve the church this is done by examining the role of faith in the two testaments and by considering how the bible s understanding of that which receives revelation is itself useful for the total enterprise of theology

this is the one book on baptism that you must read it was seven years in the making the author believes that until a new approach is taken separations over the meaning mode and recipients of baptism will never be bridged this new approach traces the roots of baptism deep into the ot scriptures when understood properly we discover

that baptism is always the sign that god has used to initiate his people into a new creation baptism in the nt is not new rather it derives its origin from ot predecessors when we understand that baptism comes from baptism especially in its sacramental expression in the priestly covenant reasons for the nt practice begin to make perfect sense now baptists have an argument that infant baptists can finally understand because we are beginning our argument in the same place yet we continue to have very baptistic conclusions as to the mode and recipients of baptism because we root baptism in baptism rather than circumcision

what is the central theme of the bible given the diversity of authorship genre and context of the bible s various books is it even possible to answer such a question or in trying to do so is an external grid being unnaturally superimposed on the biblical text these are difficult questions that the discipline of biblical theology has struggled to answer in this thoroughly revised and expanded edition of his classic *Toward an Old Testament Theology* walter kaiser offers a solution to these unresolved issues he proposes that there is indeed a unifying center to the theology and message of the bible that is indicated and affirmed by scripture itself that center is the promise of god it is one all encompassing promise of life through the messiah that winds itself throughout salvation history in both the old and new testaments giving cohesiveness and unity to the various parts of scripture after laying out his proposal kaiser works chronologically through the books of both testaments demonstrating how the promise is seen throughout how the various sub themes of each book relate to the promise and how god s plan to fulfill the promise progressively unfolds here is a rich and illuminating biblical theology that will stir the emotion and the intellect

written by an international team of leading scholars this is the first comprehensive exploration of the role and work of the holy spirit as witnessed in both the old and new testaments with contributions by craig bartholomew gary burge david desilva

in this volume witte presents three case studies on biblical theology and demonstrates how the ways of speaking and thinking about god in the old testament constitute the religio historical and theological basis for the discourse on god's acts in the person of jesus christ in the new testament the theology of the old testament and that of the new testament are inseparably connected even if discrete theologies of the old and new testaments can be identified the first study traces the development of the understanding of god in the old testament through the hebrew divine title el shaddai and one of its most important greek equivalents pantokrator the use of the title el shaddai its ancient near eastern religious background its transfer into hellenistic judaism and its theological significance reveal fundamental aspects of a biblical theology that is equally indebted to comparative philology and to the history of religion the second essay discusses justice as a central theme of the theology of the old testament and as an essential category in defining the relationship between god and humanity through a selection of different texts from the canon of the hebrew bible and the septuagint the third study offers a short literary historical biography of yahweh as the creator of the world the master of history the guarantor of justice and the donor of wisdom it takes into account the approach of the first essay which presents theology as a sort of religio historical onomastics and reflects on the basis of the second essay the traditio historical presentation of images of god and his anointed in the old testament as a background for theology and christology in the new testament from publisher

this monumental work is the first comprehensive biblical theology to appear in many years and is the culmination of brevard child's lifelong commitment to constructing a biblical theology that surmounts objections to the discipline raised over the past generation child's rejects any approaches that overstress either the continuity or discontinuity between the old and new testaments he refuses to follow the common pattern in christian thought of identifying biblical theology with the new testament's interest in the old rather child's maps out an approach that reflects on the whole christian bible with its two very different voices each of which retains continuing integrity and is heard on its own terms
