in recent years europe and central asia has experienced the world s fastest growing hiv aids epidemic yet in

the western balkan countries the hiv prevalence rate is under 0.1 percent which ranks among the lowest this may be due to a low level of infection among the population or partly due to inadequate surveillance systems all major contributing factors for the breakout of an hiv aids epidemic are present in the western balkans hiv aids disproportionately affects youth 80 percent of hiv infected people are 30 years old or younger most of the western balkan countries have very young p

this book studies the role of civil society organisations in the fight against hiv aids in russia it looks at how russia's hiv aids epidemic has developed into a serious social economic and political problem and how according to the united nations programme on hiv aids unaids russia is currently facing the biggest hiv aids epidemic in all of europe with an estimated number of 980 000 people living with hiv in 2009 the book investigates civil society organisations contribution to social change and civil society development in post soviet russia and thus situates a specific type of civil society actors into a broader socio political context and questions their ability to represent civic interests particularly in the field of social policy making and health this allows for a better understanding of the dynamics of state society relations in present day russia and gives insight into the ways hiv aids ngos in russia have used transnational ties in order to exert influence on domestic policy making in the field of hiv aids

this book examines hiv aids vulnerabilities impacts and responses in the socioeconomic and cultural context of sub saharan africa with contributions from social scientists and public health experts the volume identifies gender inequality and poverty as the main causes of the hiv epidemic in sub saharan africa

with the publication of the handbook of diversity in feminist psychology the field of feminist psychology has achieved a new depth the volume is a sophisticated and cutting edge compendium that not only describes the state of the field but also pushes its boundaries in important ways sex roles a journal of research critical for all those who are in the field of psychology to own refer to and use no longer are diversity and gender issues considered to be on the periphery as they once were one would be remiss in not considering these factors in psychology florence l denmark phd from the foreword author psychology of women finally a collection of work that is built on decades if not centuries of hard work from many feminists of color and our allies this is one of the few books that delves deeply into the complex world of considering the human condition in cultural context something psychology is only relatively recently trying to do this book is a must

have for anyone interested in feminism or diversity issues it is a great example of feminist multiculturalism and both fields i e feminism and multicultural psychology should consider it an example of how to merge theoretical orientations in a way that is fitting for real people i love this book geneva reynaga abiko psy d this handbook presents a multicultural approach to diversity in feminist psychology provocative and timely the text comprehensively discusses the cutting edge of feminist discourse covering major topics such as multicultural feminist theory gender discrimination aging health and therapy violence and harassment politics and policy and much more the unique quality of this book is that each contributor brings her own cultural perspective values and concerns to her chapter special emphasis is also given to the intersectionality of minority identities such as race ethnicity social class sexual preference and other socially constructed status differences among women key topics discussed intimate partner violence perspectives from ethnic groups in the united states gender transgressive sexual minorities hiv aids among women of color and sexual minority women psychological perspectives on older women including transitions cognitive functioning and mental health ethnicity disordered eating and body image methodological and statistical issues in research with diverse samples low income women women with disabilities workers and immigrants refugees

it has now been 25 years since the apocryphal report in the cdc morbidity and mortality weekly report dated june 5 1981 entitled pneumocystis pneumonia los angeles which announced what was to become hiv aids hiv has now affected virtually all countries that have looked for it and has had a devastating impact on the public health and medical care infrastructure around the world hiv aids has also disproportionately affected nations with the least capacity to confront it especially the developing world nations in sub saharan africa south and southeast asia and the emerging republics of eastern and central asia the pandemic unlike any other disease of our time has had profound impacts on the practice of public health itself bringing affected communities into decision making demanding north south partnerships and collaborations and changing the basic conduct of clinical and prevention trials research while much has been written in scholarly publications for medical epidemiologic and disease control specialists there is no comprehensive review of the public health impact and response to hiv aids in the developing world this edited volume seeks to systematically describe the emergence and form of the epidemics epidemiology the social community and political response and the various measures to confront and control the epidemic with varying levels of success of particular importance are strategies that appear to have been useful in ameliorating the epidemic

while contrasting the situation in a neighboring country or region where contrasting prevention or care initiatives have had a deleterious outcome common to all responses has been the international multi sectoral response represented by the global fund for hiv aids malaria and tuberculosis the president s emergency plan for aids relief and the gates foundation among others to promote hiv pharmacologic therapy in resource poor settings the chapter authors will explore the political challenges in meeting hiv aids prevention and care in concert with the public health realities in specific country and regional context

aids poses an unprecedented health and developmental threat the world over including asia ever since it emerged in the early 1980s it has been spreading rapidly across continents and devastating millions of lives in the process it has stretched the health care systems and wrecked the economies and social fabric of many societies developing countries including those in asia which has the second highest number of people living with hiv aids are the most seriously affected in asian countries the problem is compounded by the lack of awareness poverty and inadequate funds and infrastructure this important and comprehensive volume focuses on the epidemiological and programmatic aspects of the hiv aids epidemic in asia the contributors discuss the dynamics and determinants of hiv and cover a wide range of pertinent topics related to prevention care and treatment these include the health economic socio cultural and security dimensions of hiv aids success stories in hiv prevention and care including 100 condom programme antiretroviral treatment and the 3 by 5 initiative management of hiv and sexually transmitted infections drug related hiv vaccine development the role of ngos country specific hiv reports the contributors highlight the lessons learned in asia in responding to the challenge posed by hiv and the success achieved by many countries in addition to hiv prevention facilitating access to care including antiretroviral treatment despite the many problems is now a matter of crucial importance scaling up of innovative approaches proven effective elsewhere is also a matter of great urgency this volume will be invaluable for all those engaged in combating hiv throughout the world in particular it will be of immense use to all those involved in hiv aids control programmes public health professionals health care workers policy makers health administrators as also international agencies and ngos and community based organizations

hiv aids is a catastrophe globally but nowhere more so than in sub saharan africa which in 2008 accounted for 67 percent of cases worldwide and 91 percent of new infections the institute of medicine recommends that the united states and african nations move toward a strategy of shared responsibility such that these

nations are empowered to take ownership of their hiv aids problem and work to solve it

overview in 2008 an estimated 4.7 million people were living with hiv aids in asia and in 2007 75 people living with hiv aids resided in three countries china and india the two most populous countries in the world and thailand india alone is home to more than 45% of all people living with hiv aids in the region 2.4 million people and is the third largest epidemic of any country in the world behind south africa and nigeria within the region hiv prevalence rates vary rates in east asia and south south east asia less than 0.1 and 0.3 in 2008 respectively are lower than the global prevalence rate 0.8 and prevalence rates in many countries across asia have been stable in recent years however some countries mostly those located in south south east asia have experienced increases in prevalence rates in recent years including indonesia pakistan and vietnam in addition the epidemic in the papua province of indonesia has been of particular concern as a 2006 population based survey found an adult hiv prevalence rate of 2.4% in 2008 there were about 350,000 new hiv infections and 330,000 deaths due to aids in asia hiv in asia is spread primarily through sex with commercial sex largely driving transmission in much of the region injecting drug use is a major risk factor in several asian countries and there is growing concern about the overlap of sex work and injecting drug use as well as the transmission of hiv to the partners of those infected through commercial sex finally sex between men contributes to hiv transmission particularly in thailand and vietnam regional data show prevalence rates among men who have sex with men msm are also high in parts of indonesia cambodia and india but more research is needed to understand the extent of its impact

south asia's hiv epidemic is severe in magnitude and scope with at least 60% of all people with hiv in asia living in india because the hiv epidemic is highly heterogeneous designing informed prioritized and effective responses necessitates an understanding of the epidemic's diversity between and within countries this review was undertaken to provide a basis for rigorous evidence based hiv policy and programming in south asia

is a plea for a more respectful approach to dealing with the social and cultural traditions of africans in the ongoing battle against aids the renowned german sociologist and author reimer gronemeyer spent four years carrying out numerous interviews with african aids victims and their families as well as experts in the field their reports and observations on living with the disease provide irrefutable evidence to support the

author's arguments that the destruction of traditional African living environments, the family subsistent lifestyle, social values, has been the decisive requirement for the rapid spread of the virus AIDS in Africa is a disaster born of modernisation, a provocative and emotive book.

The publication aims at up-to-date information on the epidemic in sub-Saharan and particularly southern Africa, on responses and gaps, and on policy and human rights issues. Topics include prevention, care, and impact mitigation.

comprises summaries of actions undertaken as well as lessons learned by employers, organizations in eight countries in Africa, Asia, and the Americas regarding HIV/AIDS in enterprises, focuses on prevention campaigns, workplace relations, family support, etc.

Use tools and apps to organize your ebook collection, making it easy to find and access your favorite titles.

## **Syncing Across Devices**

Many ebook platforms allow you to sync your library across multiple devices, so you can pick up right where you left off, no matter which device you're using.

## **Challenges and Limitations**

Despite the benefits, free ebook sites come with challenges and limitations.

## **Quality and Availability of Titles**

Not all books are available for free, and sometimes the quality of the digital copy can be poor.

## **Digital Rights Management (DRM)**

DRM can restrict how you use the ebooks you download, limiting sharing and transferring between devices.

## **Internet Dependency**

Accessing and downloading ebooks requires an internet connection, which can be a limitation in areas with poor connectivity.

## **Future of Free Ebook Sites**

The future looks promising for free ebook sites as technology continues to advance.

## **Technological Advances**

Improvements in technology will likely make accessing and reading ebooks even more seamless and enjoyable.

## **Expanding Access**

Efforts to expand internet access globally will help more people benefit from free ebook sites.

## **Role in Education**

As educational resources become more digitized, free ebook sites will play an increasingly vital role in learning.

## **Conclusion**

In summary, free ebook sites offer an incredible opportunity to access a wide range of books without the financial burden. They are invaluable resources for readers of all ages and interests, providing educational materials, entertainment, and accessibility features. So why not explore these sites and discover the wealth of knowledge they offer?
