it is our privilege to welcome you to the third canadian edition of an introduction to psychological science we would not have had this opportunity without the support and feedback of the instructors who have adopted this book for their classes and from their students and our own who have learned from this book why is it time for a third edition as you should already know psychological science progresses quickly and we want to ensure we represent significant advances or theoretical challenges that are happening right now in addition there are examples and applications of psychological principles in the media all of the time and we want to include these in the learning experience whether in the text or in online activities

while keeping the book up to date with the latest research and current events we also want to improve on our presentation of classic studies research methods and so on that remain in the foundation of our discipline this is where the feedback from our readers has been so important thanks to everyone who has shared what they have enjoyed about this book as well as what we might be able to do better we believe we have in fact done better

problem solving courts are special courts that do not simply punish offenders but employ other justice and psychology principles to help solve the underlying social issues that contributed to the crime the prevalence and practice of problem solving courts vary widely around the world society science and problem solving courts lays out the societal and scientific factors that explain the development of problem solving courts and chart a path for their future

your graduate training in psychology takes current and upcoming graduate students beyond the typical concerns of enrolling into graduate school and guides them on how to complete graduate school successfully unlike other books that focus on how to get into graduate school this book directly addresses the major issues that students confront during their graduate training in psychology a carefully selected cadre of expert authors in their respective areas illuminate the broad range of processes practices and procedural issues that face graduate students in both masters and doctoral programs ordered chronologically from the first year of graduate school settling in to what students need to know as they finish winding down and gearing up students will learn the key skills needed to succeed in all aspects of their academic and professional careers while in school and after beginning a professional career

the first of three volumes the five sections of this book cover a variety of issues important in developing designing and analyzing data to produce high quality research efforts and cultivate a productive research career first leading scholars from around the world provide a step by step guide to doing research in the social and behavioral sciences after discussing some of the basics the various authors next focus on the important building blocks of any study in section three various types of quantitative and qualitative research designs are discussed and advice is provided regarding best practices of each the volume then provides an introduction to a variety of important and cutting edge statistical analyses in the last section of the volume nine chapters provide information related to what it takes to have a long and successful research career throughout the book example and real world research efforts from dozens of different disciplines are discussed
