masters theses in the pure and applied sciences was first conceived published and disseminated by the center for information and numerical data analysis and synthesis cindas at purdue university in 1957 starting its coverage of theses with the academic year 1955 beginning with volume 13 the printing and dissemination phases of the activity were transferred to university microfilms

xerox of ann arbor michigan with the thought that such an arrangement would be more beneficial to the academic and general scientific and technical community after five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volumes were handled by an international publishing house to assure improved service and broader dissemination hence starting with volume 18 masters theses in the pure and applied sciences has been disseminated on a worldwide basis by plenum publishing corporation of new york and in the same year the coverage was broadened to include canadian universities all back issues can also be ordered from plenum we have reported in volume 32 thesis year 1987 a total of 12 483 theses titles from 22 canadian and 176 united states universities we are sure that this broader base for these titles reported will greatly enhance the value of this important annual reference work while volume 32 reports theses submitted in 1987 on occasion certain universities do report theses submitted in previous years but not reported at the time

volumes for 1956 include selected papers from the proceedings of the american veterinary medical association

every 3rd issue is a quarterly cumulation

issues for 1973 cover the entire ieee technical literature

the solution focused approach developed by steve de shazer and insoo kim berg has been well established across many areas of society in this book the practical uses of solution focused work in companies and management are shown by means of conceptual contributions as well as many case studies and projects in practice current developments in leadership marketing and sales project management work design human resources organisational development and learning training and coaching as well as conflict management are described in addition we also present empirical studies on the effect of solution focused work in enterprises the authors günter lueger looks for opportunities to do things in management differently he specialises in designing and redesigning management instruments and paper work in companies in a solution focused way innovations include solution focused rating sfr and solution focused management instruments like fmt which allow more appreciative assessments and analysis in organisations solutionmanagement net fit management at hans peter korn started to work as a scientist phd in nuclear physics he was then active in line and project management on different levels in power plant engineering the financial industries air transport industries and software engineering fascinated with systemic and solution focused management in theory and practice he started his own business
