the development of autonomous vehicles requires all the countries of the world to adapt their respective legal systems the scale and complexity of the task is daunting the law is called upon to enable and even encourage the advent of this revolution while guaranteeing a fair allocation of the resulting risks and ensuring public safety what's more the law must rise to this challenge at a time when it is impossible to predict in the medium term the speed at which autonomous vehicles will enter circulation or even their degree of autonomy adapting civil liability law appears to be the key to success faced with the peculiarities of autonomous vehicles many concepts on which current liability regimes are based will need rethinking for instance the complex manufacturing of driving systems multiplies the number of potential liable parties and the black box effect associated with the operation of learning ai increases the burden of proof in the event of a failure

the book examines ecological issues such as climate change and biodiversity articulating local and global scales and short and long term perspectives questioning what development and progress are the goal is to show how diverging points of view are conflictively articulated to one another in a political ideology perspective this

perspective which is close to the main actor's point of view allows displacement of the usual analysis and offers a new synthesis

counting religion in britain 1970 2020 the fourth volume in the author's chronological history of british secularization sheds significant new light on the nature scale and timing of religious change in britain during the past half century with particular reference to quantitative sources adopting a key performance indicators approach twenty one facets of personal religious belonging behaving and believing are examined offering a much wider range of lenses through which the health of religion can be viewed and appraised than most contemporary scholarship summative analysis of these indicators by means of a secularization dashboard leads to a reaffirmation of the validity of secularization in its descriptive sense as the dominant narrative and direction of travel since 1970 while acknowledging that it is an incomplete process and without endorsing all aspects of the paradigmatic expression of secularization as a by product of modernization

legacies of enslavement in the french republic explores the complex dynamics between social movements invested in remembering and addressing the legacies of african enslavement and the french state exploring 25 years of activism from the build up to the 150th anniversary of the abolition act 1998 through to the present day the book investigates strategies used by the french state to delink the recognition of france's enslaving past from contemporary issues with anti black racism and reparation asks why in the wake of the first taubira law that recognized slavery as a crime against humanity 2001 the state has legitimized the work of certain activist groups while delegitimizing others uses critical race theory and decolonial theory to examine the extent to which the state's approach to recognizing its past is structured by a colonial matrix of power highlights and contests political and media misconceptions about reparations by showcasing the work of grassroots activists operating in france the caribbean and the indian ocean in doing so legacies of enslavement showcases some of the key

shifts that have taken place in the recent history of activist work operating in parallel with the successive metamorphoses of the french state as it responds to social and political pressure to recognize and repair the nation's enslaving past and its racial legacies today
