this book explores the evolving relationship between the history and epistemology of mathematics and mathematics education over the past fifty years beginning with the international movement that emerged in the 1970s it celebrates the enduring and expanding role of historical and epistemological perspectives in shaping teaching practices organized into seven thematic sections the volume examines core issues such as how historical and epistemological insights enhance understanding of mathematical concepts interdisciplinarity as a tool for teaching and innovative approaches to teacher training it also delves into the use of historical problems ancient texts and textbooks as teaching resources alongside an analysis of the social and political dimensions of mathematics education special attention is given to the impact of the modern mathematics reform and its legacy in rekindling interest in the history of mathematics in education featuring contributions from diverse geographical and historical contexts this book is an essential resource for teachers researchers and anyone passionate about the rich interplay of history epistemology and mathematics

how did early modern scientists interpret galileo s influential two new sciences in 1638 galileo was over seventy years old blind and confined to house arrest outside of florence with the help of friends and family he managed to complete and smuggle to the netherlands a manuscript that became his final published work two new sciences treating diverse subjects that became the foundations of mechanical engineering and physics this book is often depicted as the definitive expression of galileo s purportedly modern scientific agenda in reading galileo renée raphael offers a new interpretation of two new sciences which argues instead that the work embodied no such coherent canonical vision raphael alleges that it was written and originally read as the eclectic product of the types of discursive textual analysis and meandering descriptive practices galileo professed to reject in favor of more qualitative scholarship focusing on annotations period readers left in the margins of extant copies and on the notes and teaching materials of seventeenth century university professors whose lessons were influenced by galileo s text raphael explores the ways in which a range of early modern readers from ordinary natural philosophers to well known savants responded to galileo she highlights the contrast between the practices of galileo s actual readers who followed more

traditional bookish scholarly methods and their image constructed by galileo and later historians as modern mathematical experimenters two new sciences has not previously been the subject of such rigorous attention and analysis reading galileo considerably changes our understanding of galileo s important work while offering a well executed case study in the reception of an early modern scientific classic this important text will be of interest to a wide range of historians of science of scholarly practices and the book and of early modern intellectual and cultural history

chosen as star pick in the sunday times crime club chosen as a best new crime novel in the sunday times the series that has shadowed brunetti for three decades is an epic achievement the times leon s books are a joy guardian when two young american women are badly injured in a boating accident commissario brunetti s eye turns to the two young italians they were with who abandoned them in the hospital when one of the young men is found to be involved in more sinister night time activities in the laguna brunetti has to enlist the help of italian institutions to get to the bottom of the mystery but can brunetti trust unfamiliar colleagues could there be another motive behind this horrible crime she is a truly fine novelist period and should be acclaimed as such tls

an integrated approach to investigate create and propose a model for the value creation of cultural products is essential in maintaining its connection with e relationship marketing this examination is important in recognizing a common perspective the handbook of research on management of cultural products e relationship marketing and accessibility perspectives examines the potential value of cultural products and how the support of new technologies can enable non conventional and social media marketing relationships this book aims to highlight an emerging subject area in the field of financial management management of value creation and marketing that will be essential for scientists researchers and practitioners

the mēcanique analytique presents a comprehensive account of lagrangian mechanics in this work lagrange used the principle of virtual work in conjunction with the lagrangian multiplier to solve all problems of statics for the treatment of dynamics a third concept had to be added to the first two d alembert s principle in order to develop the lagrangian equations of motion hence lagrange was able to unify the entire science of mechanics using only three concepts and algebraic operations

coverage of publications outside the uk and in non english languages expands steadily until in 1991 it occupies enough of the guide to require publication in parts

contains records in review
