a journey into the numerous horror films of the 80 s analyzed under a religious profile which is purely catholic the diversification of the analysis is of course an issue that interests us in fact of all the films taken into consideration this journey not only gives a brief opinion of the film but it also shows the depth and thoughts shared and prepared by the catholic cinematographic center this centre analyzes the plot and also evaluates the film under an ethical moral and religious aspect in order to indicate if catholics are able to watch it the result is a really interesting insight and sometimes it has a fun perspective we must acknowledge however that the critical catholic knows how to diversify religious opinion from the technical creative aspects this means that a film can be recognized as a masterpiece but not get the clearance for visibility 65 deepened critical articles of the most important films of the decade over 9000 horror movies from 1980 to 1989 linked to external resources for cast posters images and reviews the electronic version of this book is designed in kindle pdf and epub format this is an interactive book an internet connection is not essential although it is recommended so the reader can take advantage of the many external links that are present in the work

this book explores the role of science in the short stories of machado de assis focusing on works such as *O alienista* 1882 *A sereníssima república* 1882 and *Idéias de canário* 1899 it examines how machado uses scientific theories as literary and sociological devices to critique modern state institutions including hospitals prisons and government sponsored medical projects his scepticism extends to the liberal and politically independent scientific discourse of late nineteenth century brazil a period of profound political economic and social change by questioning the idealized figure of the rational scientist machado exposes the racial and economic hierarchies upheld by the dominant intelligentsia madness egocentrism and the use of fantastic elements such as talking animals and absurd situations engage with the ancient tradition of the fable to highlight social tensions the result is an ethically charged poetics of unreason shaped by an ironic scepticism toward romantic nationalism literary naturalism and

scientific positivism particularly in relation to race gender class and nationality perfect for scholars of literature history and cultural studies this book reinterprets machado de assis as a radical thinker whose fiction offers a penetrating critique of race gender and class in the making of modern brazil it can also serve as an initial study for many interdisciplinary interpretations of his work opening new perspectives on his engagement with science and politics
