true stories and legends about the saints

if a list were made of the greatest human beings who have ever lived those reflected upon in this four volume series would be at the top of that list though historians often attempt to judge greatness from their own subjective perspective there must be an objective criteria by which human greatness is judged the only person who is capable of establishing that criteria is god the criteria that god has established are the virtues as identified by jesus and revealed by him through the holy gospels the goal of this four volume series is to present each saint found on the catholic liturgical calendar as a solemnity feast or memorial in such a way as to identify the godly virtues that place them on the top of that list though their greatness

has already been established and their heroic virtues confirmed by the church god chose the men and women found in these pages not only for greatness in their lifetimes but also as models of holiness in ours these men and women are gifts to you given by god through the church every saint is unique but every saint is similar because each one became living witnesses to christ and living gospels for a world in need some saints were united to god through martyrdom some through virginity and chastity some through works of charity and some through lives of intense prayer the saints have come from every culture every socio economic background every level of education and every personality type through every saint god shines forth radiating his abundant mercy through the diversity of their lives in the end it is not their personality preferences gifts or any other unique qualities that unite them as the one communion of saints it is god and god alone who floods their souls and forms them into a united song of praise of god s eternal glory why read about the saints why learn about their lives why ponder what they said and did the answer is simple you are called to be among their company you are called to become as holy as they were transformed by god s grace and to radiate that grace in the world today at first the virtues of the saints might seem to be out of your reach the saints can appear to be superhuman the truth is that the saints became fully human by becoming who they were created to be they rejected the deceptions of the devil the seductions of the world and the weaknesses of the flesh instead they discovered the truths of god sought out the riches of heaven and became filled with the strength of every virtue as you read about the lives of the saints ponder their words and actions study their heroic virtues and learn from their lives of prayer allow yourself not only to be inspired by them but also to desire to imitate them nothing is stopping you from being counted among the saints in heaven god promises to lavish every grace upon you that you need to walk down that holy path only when you refuse his grace is that mission thwarted

the saints form a huge part of our world s history on both a religious and secular level their shrines have attracted millions of pilgrims throughout the centuries and their relics continue to be venerated today in north america even atheists and non christians know to bury a statue of st joseph in their yards for a quick sale of their property in england there is a tradition that the weather on st swithun s feast day the 15th july will continue for forty more days on the 14th of february the love struck and lonely hearted of the world declare their crushes with a card or gifts to the object of their affections signing in the name of st valentine but how did people become saints what role does sainthood continue to play in our institutional beliefs and traditions and how does their significance in the christian ideology translate into other cultures and belief systems simon yarrow introduces the origins of sainthood and sanctity and examines the part the saints have played in our society and culture from the ancient world to the modern day exploring the treatment of saints in literature and art and the way they have been used in politics he analyses them as examples of idealised male and female heroism he concludes by considering the similarities between christian saints and holy figures in other religious cultures including islam buddhism and hinduism

translating europe in Ælfric s lives of saints is the first study of the representation of european peoples places and geographies in the lives of saints one of early medieval england s most famed works it examines the lives of saints as a unified collection whose various items work cumulatively and concurrently to provide audiences with teachings far beyond the scope of an individual homily or saints life in doing so it demonstrates that Ælfric s european characters and settings served not merely as a convenient skeleton on which to frame his hagiographical narratives but rather lay at the heart of his didactic praxis and pedagogic aims luisa ostacchini systematically compares each of the 30 plus items that comprise Ælfric s lives of saints to their latin sources and to one another to highlight previously unnoticed patterns and formulae within collection in so doing she demonstrates that Ælfric s interest in community was both inward and outward looking he sought on the one hand to situate england within the wider christian world and on the other hand to promote the internal unity of the english kingdom and the reformed monastic establishment this book sheds new light on the ways that Ælfric wrote about the christian world and england s place within it and further illuminates of the didactic praxis and ideology of one of the most influential and significant authors of the early medieval period luisa ostacchini is a college lecturer at st john s college oxford where she teaches old and middle english literature
