this introductory textbook features expert cutting edge theory and research on creativity tailored for undergraduate courses creativity is critical out of our minds explores creativity its value in business its ubiquity in children its perceived absence in many adults and the phenomenon through which it disappears and offers a groundbreaking approach for getting it back author sir ken robinson is an internationally recognised authority on creativity and his ted talk on the subject is the most watched video in ted s history in this book sir ken argues that organisations everywhere are struggling to fix a problem that originates in schools and universities organisations everywhere are competing in a world that changes in the blink of an eye they need people who are flexible enough to adapt and creative enough to find novel solutions to problems old and new out of our minds describes how schools businesses and communities can work together to bring creativity out of the closet and realise its inherent value at every stage of life this new third edition has been updated to reflect changing technologies and demographics with updated case studies and coverage of recent changes to education while education and training are the keys to the future the key can also be turned the other way locking people away from their own creativity only by actively fostering creativity can businesses unlock those doors and achieve their true potential this book will help you to understand the importance of actively promoting creativity and innovation discover why creativity stagnates somewhere between childhood and adulthood learn how to re awaken dormant creativity to help your business achieve more explore ways in which we can work together to keep creativity alive for everyone modern business absolutely demands creativity of thought and action we're all creative as children so where does it go when do we lose it out of our minds has the answers and clear solutions for getting it back

written by one of the leading scholars in the field of creativity the mission of this book is to provide instructors teaching courses in creativity with a textbook that provides both comprehensive content coverage and state of the art pedagogy no other text currently provides both of these elements key features of this exciting new text include the following author

expertise □ a past president of division 10 of the american psychological association mark runco founded and still edits the creativity research journal in addition to teaching courses in creativity for 20 years he co edited the encyclopedia of creativity wrote one book on the topic and contributed to several others scholarly and readable □ although the text is based entirely on research the writing style is informal and laced with interesting examples and biographies to which students can relate pedagogy □ each chapter opens with an advance organizer and questions and concludes with a chapter summary other pedagogical features include marginal notes to underscore key terms and ideas illustrative boxes pictures of creative persons and products and exercises that require creative thinking

for thousands of years humanity has engaged in creative expression this book explores the history theory and practice of creativity from a psychological perspective it considers the nature and development of creativity analysing why we produce creative work and the ways in which we can understand creative work in its cultural context

this book analyzes the contribution made by school textbooks to the fostering of lifelong learning skills two complementary approaches were adopted for the research on which it is based the first a deductive approach is reflected in part 1 of the book starting from the conceptual framework of lifelong education as it has been developed by the unesco institute for education uie a list of objectives establishes the function of schooling within the perspective of lifelong education the list of objectives is as follows 1 stimulation of student interest motivation 2 creativity and self direction 3 transfer i e linking educational experiences with life 4 linkage among disciplines and 5 flexibility this list suggests tasks that can be related to characteristics of textbooks in the context of lifelong education the characteristics are these format presentation language methodology and achievement e g self assessment and self awareness the second approach an inductive approach is used in part 2 of this study three main steps are identifiable within this approach the selection of textbooks thought to embrace principles of lifelong education the

testing and refining of the matrix used for analyzing the textbooks and the analysis of textbooks selected by three national teams in singapore the united states and wales the findings reported in the study show that much has been accomplished with regard to textbook design in order to promote the objectives of lifelong education nevertheless the achievement of certain objectives i e linkage among disciplines and flexibility is less in evidence much remains to be done if textbooks are to support all of the objectives of lifelong education details of the u s study and lists of the textbooks analyzed are included in the appendix 68 references kc
