about nascent entrepreneurship distilled from recent research wagner *rst* summarises evidence about the incidence of nascent entrepreneurship before surveying the start up activities of nascent entrepreneurs he then

goes on to provide a birds eye view of the characteristics of nascent entrepreneurs the factors associated with becoming a nascent entrepreneur and the outcomes of nascent entrepreneurs in terms of whether they start quit or continue preparing for eventual business entry wagner s chapter provides a wealth of information about nascent entrepreneurship summarising key findings from a large and growing and diverse literature which looks set to continue growing rapidly in the years ahead in chapter 3 shaker zahra reviews the literature on new venture strategy and its implications for organizational survival financial performance and growth zahra discusses competitive cooperative and political strategies and highlights the importance of synchronizing these strategies a particular strength of this chapter is its ability to uncover similarities and unifying themes in apparently divergent views in this way the chapter succeeds in resolving some apparent contradictions by putting the different perspectives into a complementary context and identifying areas where convergence appears to be within reach zahra goes on to highlight the contributions of the different strategic approaches as well as their shortcomings he concludes by identifying several implications for future research

four different types of ventures created by entrepreneurs are explored in what do entrepreneurs create survival lifestyle managed growth and aggressive growth the concept of a balanced venture portfolio is introduced to guide public policy formulation and the development of entrepreneurial ecosystems
