ce livre s agit d une réflexion sur l enseignement apprentissage du français langue étrangère en algérie nous avons pris comme exemple le premier palier de l enseignement et précisément les apprenants de la cinquième année ce travail est reparti en deux parties une partie théorique descriptif et évaluative nous l avons entreprise par un bref d horizon sur le statut du français langue étrangère dans le cycle primaire ensuite nous avons défini le rôle de l école et l enseignant dans la construction et la stabilisation de l interlangue chez les apprenants enfin nous avons explicité la place de l apprentissage du français langue étrangère dans le processus d écriture la partie pratique analytique et expérimentale qui consiste à remarquer le problème sur le terrain d abord nous civet utile d assister aux séances de la grammaire et de ramasser les copies des apprenants leurs projets et les tests d évaluation puis nous avons fait de montrer la réalité de l apprentissage du français langue étrangère en algérie les enjeux de l étude de la grammaire et dessus de cela nous avons confirmé que l interlangue pourrait être une source de motivation des apprenants

le développement de la motivation des enfants des adolescents et des étudiants universitaires à l égard de l apprentissage et de l usage de la langue française dans des contextes de plus en plus hétérogènes ne relève plus de l évidence face à des obstacles d ordres divers liés à l identité à des difficultés d apprentissage à la peur de l échec aux difficultés à communiquer à la peur du changement au recours à des

méthodes inappropriées il revient aux institutions d enseignement autant qu aux personnes enseignantes d œuvrer pour qu un rapport positif à la langue française puisse peu à peu s élaborer que savons nous de l image que les apprenants se font de la langue française À quelles représentations quelles formes de communication ou quels projets l associent ils quelle s image s du français véhiculent les médias auprès de ces générations quelle est la perception de la plus value de l apprentissage de cette langue c est à ces questions et à tant d autres que les 29 communications provenant de 19 pays rassemblées dans le 1er volume des actes électroniques du congrès de liège consacré à la thématique générale du français pour les jeunes et par les jeunes tentent d y répondre

la question des langues maternelles dans le système d enseignement algérien est de nos jours un véritable problème qui suscite bien des débats bannies des bancs de l école ces langues sont effacées au profit de l arabe classique quasiment non pratiqué en algérie et a fortiori du français problèmes identitaires ou apprentissage difficile sont autant de conséquences dues à ce modèle dépassé et manifestement en décalage avec la notion de pédagogie moderne l évolution de l enseignement étant aujourd hui essentielle cet essai propose des solutions construites en mettant en avant la méthode de didactique convergente cet essai soulève un véritable problème à la fois sociologique et politique a travers une démonstration rondement menée a chelli parvient à trouver des solutions réfléchies bien loin de toute utopie qui permettraient aux langues maternelles de trouver leur place dans l enseignement algérien des propositions dignes de ce nom inspirées de modèles existants ayant d ores et déjà fait leurs preuves
