this edited book provides a global view on evolution education it describes the state of evolution education in different countries that are representative of geographical regions around the globe such as eastern europe western europe north africa south africa north america south america middle east far east south east asia australia and new zealand studies in evolution education literature can be divided into three main categories a understanding the interrelationships among cognitive affective epistemological and religious factors that are related to peoples views about evolution b designing implementing evaluating evolution education curriculum that reflects contemporary evolution understanding and c reducing antievolutionary attitudes this volume systematically summarizes the evolution education literature across these three categories for each country or geographical

region the individual chapters thus include common elements that facilitate a cross cultural meta analysis written for a primarily academic audience this book provides a much needed common background for future evolution education research across the globe

despite their removal from england s national curriculum in 1988 and claims of elitism latin and greek are increasingly re entering the mainstream educational arena since 2012 there have been more students in state maintained schools in england studying classical subjects than in independent schools and the number of schools offering classics continues to rise in the state maintained sector the teaching and learning of latin and greek is not however confined to the classroom community based learning for adults and children is facilitated in newly established regional classics hubs in evenings and at weekends in universities as part of outreach and even in parks and in prisons this book investigates the motivations of teachers and learners behind the rise of classics in the classroom and in communities and explores ways in which knowledge of classical languages is considered valuable for diverse learners in the 21st century the role of classical languages within the english educational policy landscape is examined as new possibilities exist for introducing latin and greek into school curricula the state of classics education internationally is also investigated with case studies presenting the status quo in policy and practice from australasia north america the rest of europe and worldwide the priorities for the future of classics education in these diverse locations are compared and contrasted by the editors who conjecture what strategies are conducive to success
