winner of the shingo research and professional publication award everyone knows that in order to reach optimum levels of health you have to exercise and that you have to keep at it day after day after day no big secret here it is the same with process improvement and specifically lean processes everything there is to know about lean has been revealed countless books articles and seminars provide business leaders all the information they need to understand how lean works and how effective it can be when fully implemented again not a secret why then do companies invariably fail in their pursuit of operational excellence the same reason people fail to trim fat through exercise they don't do it they try to squeeze it into their schedule they don't make it part of their schedule and inevitably it becomes less of a priority in the same vein too many business leaders see process improvement as a project something separate from the more pressing goals of profits and growth that is where they go wrong and that is where building the fit organization comes in in this practical hands on guide markovitz walks you step by step through the process of making lean as intrinsic to your company as the pursuit of profits you will learn how to make an unshakeable commitment to increasing the value provided by doing the right work in the right way with continuous monitoring of processes and structured coaching for everyone you don't need another book about lean what you need to learn is how to make process improvement your company's purpose like a serious athlete you're warmed up you know what lean is and how it can help your organization now it's time to perform building the fit organization is the next step to creating a company that can compete on the toughest of playing fields

at last a book about errors flubs and screwups that pushes beyond platitudes and actually shows how to enlist our mistakes as engines of learning growth and progress dive into the mistakes that make us and discover the secrets to nurturing a psychologically safe environment that encourages the small experiments that lead to big breakthroughs daniel h pink 1 new york times bestselling author of drive when and the power of regret we all make mistakes what matters is learning from them as individuals teams and organizations the mistakes that make us cultivating a culture of learning and innovation is an engaging inspiring and practical book by mark graban that presents an alternative approach to mistakes rather than punishing individuals for human error and bad decisions graban encourages us to embrace and learn from them fostering a culture of learning and innovation sharing stories and insights from his popular podcast my favorite mistake along with his own work and career experiences graban shows how leaders can cultivate a culture of learning from mistakes including examples from manufacturing healthcare software and two whiskey

distillers the book explores how organizations of all sizes and industries can benefit from this approach in the book you'll find practical guidance on adopting a positive mindset towards mistakes it teaches you to acknowledge and appreciate them take necessary measures to avoid them while gaining knowledge from the ones that occur additionally it emphasizes creating a safe environment to express mistakes and encourages responding constructively by emphasizing learning over punishment developing a culture of learning from mistakes through psychological safety is essential in effective leadership and organizational success leaders must lead by example and demonstrate kindness to themselves and others by accepting their own blunders instead of solely pushing for more courage from their team this approach as graban highlights fosters a positive and productive work environment the mistakes that make us is a must read for anyone looking to create a stronger organization that produces better results including lower turnover more improvement and innovation and better bottom line performance whether you are a startup founder or an aspiring leader in a larger company this book will inspire you to lead with kindness and humility and show you how mistakes can make things right table of contents chapter one think positively chapter two admit mistakes chapter three be kind chapter four prevent mistakes chapter five help everyone to speak up chapter six choose improvement not punishment chapter seven iterate your way to success chapter eight cultivate forever afterword end notes list of podcast guests mentioned in the book more praise for the book making mistakes is not a choice learning from them is whether we admit it or not mistakes are the raw material of potential learning and the means by which we progress and move forward mark graban's the mistakes that make us is a brilliant treatment of this topic that helps us frame mistakes properly detach them from fear and see them as expectations not exceptions this book's ultimate contribution is helping us realize that creating a culture of productive mistake making accelerates learning confidence and success timothy r clark phd author of the 4 stages of psychological safety ceo of leaderfactor

a 260 page full color book that will help you stop reacting to noise start responding to signals measures of success shows business leaders how a practical guide for how to manage your metrics organizations depend on metrics for their business question is are they helping people do the right things or encouraging them to overreact to every uptick downturn and change in other words reacting to noise noise is present in every metric but it's our reaction to noise that causes waste and stress too often people don't recognize this like feeling stuck on a rollercoaster you no longer enjoy we do and explain things that don't help us improve at the cost of doing things that do no need to be jittery about every change in a metric not by a long shot measures of success shows a better way to chart and manage your metrics in any organization or setting for your business processes and activities you need to know what's working what's not and what to change and why then you can determine what to stop doing what to start doing what to keep doing so you can jump off the metrics rollercoaster by responding to signals systematically sustainably learn how to identify meaningful signals in a metric to respond just right or perhaps not at all you'll learn how with methods easy to understand making it obvious what activities to do next loads of vivid stories and clear examples from healthcare software companies and more with compelling case studies from the news and personal lives too what gets measured gets managed we've all heard that but did you ever learn how to manage a metric this ain't about

gaming the system or fudging the numbers this is about delivering real value understood by everyone and proven with data learn a better way to manage your measures who is measures of success for executives and leaders in healthcare manufacturing and services who know what to measure and are now ready to learn how to manage those measurements and willing to challenge and change the way things are done today motivate workers to think and do them better tomorrow coach people versus telling them what to do be responsible for results not hold others accountable encourage people to collaborate not compete help people sleep better at night because they re improving their work during the day to be clear measures of success is not for leaders who d rather give orders then blame others when things go south that whole hit the target or else thing won t create real change nor real value but that ain t you right after reading measures of success you ll be able to answer three critical questions for your business are we achieving our target and how often occasionally consistently are we improving and can we predict our future performance how do we improve and when do we react when do we ignore when do we improve and how can we prove we re improving how would you feel if you could answer these questions for your business measures of success shows you how process behavior charts this book teaches you a proven method for filtering out noise so we can identify signals this means we waste less time chasing our tail and more time responding to signals that really matter heading off small problems before they become big or showing that we ve boosted performance in significant and sustainable ways
