test pilots dashing and courageous young men or foolhardy gamblers in this fully illustrated book written by the producer of the bbc1 television series of the same name we follow the ups and downs of a group of trainee test pilots at boscombe down in wiltshire beginning with the exacting selection procedure we discover what personal and professional qualities a pilot needs in order to become a test pilot only six uk and twelve foreign students are chosen each year and once selected the pressure on them steadily mounts as the students learn to push each aircraft s performance to its limits they too

are being mentally and physically stretched further than ever before training is given on both fixed and rotary wing aircraft and by the end of the course each student is fully conversant with the different techniques necessary to fly each type they learn how to recover safely from spins how to cope with sudden failures of equipment in mid flight and how to land an aircraft with no power all the time they are assessing each aircraft's capabilities and the scope of the on board technology the final part of the course is the preview exercise when every student is required to evaluate an aircraft he has never flown before and to make a formal presentation to his tutors and examiners using a number of remarkably frank interviews with students and tutors brian johnson explores the process of becoming a test pilot and reveals both the stresses and successes of the year the raf has given its full support to both the book and the television programmes and thus has enabled brian johnson to produce a unique and authoritative account of the training for one of the most responsible and exciting jobs in modern aviation

in this memoir the author of nimrod rise and fall details his experience testing the uk's strategic bomber while flying for avro during the cold war in 2007 a restored avro vulcan mark 2 xh558 took to the skies to help commemorate the 25th anniversary of the falklands conflict to coincide with this the memoirs of one of its test pilots tony blackman was published to great acclaim tony flew no less than 105 of the 136 built logging 850 flights at over 1 327 hours his book describes in layman's terms what it was like to tame the first prototypes of the monumental delta wing aircraft and to master the unusual characteristics necessitated by the vulcan's shape although tony puts the developments demonstrations incidents and accidents in their political and historical context his story is a highly personal one he explains how this awesome aircraft became a national treasure and captured the imagination of the whole country his words descriptions and photographs will make people feel as he did the excitement of handling such an incredibly powerful monster always in the knowledge that he had to be always in complete control of the monster as it could and did bite back praise for vulcan test pilot highly readable keeping both the technical reader interested without perplexing the layman a fine book for both logbook fascinating gracefully written and superbly knowledgeable air and space magazine

piloting experimental aircraft is more dangerous than most other types of flying test pilots

are generally military aviators who fly new and modified aircraft allowing the results to be measured and the design to be evaluated despite their image as fun loving daredevils these pilots have to be ruthlessly precise and professional when flying this intriguing book looks at what type of people become test pilots how they train what the job includes how it feels to be the first person to fly a new design the aircraft they fly and how they analyze and report on each flight

this revised edition of the 1981 original now includes the challenger and voyager missions a fascinating recounting of the development of modern aircraft and the test pilots who flew them annotation copyrighted by book news inc portland or

chris taylor has had a very successful career as a royal navy officer helicopter pilot test pilot instructor and as an internationally acclaimed civil certification test pilot his first book test pilot concentrates on anecdotes and incidents from the most recent phase of his career this book is the prequel and is his account of his ten years service as an experimental test pilot from 1994 until 2004 at mod boscombe down the uk s tri service home of military aircraft testing and evaluation in this book chris explains what led to his passion to be a test pilot and how with tenacity he plays the cards he was dealt as well as he could the story captures the difficulties and challenges associated with being selected for the single annual place at the empire test pilots school etps and the dedication required to then complete the very demanding twelve month course chris was one of only three helicopter experimental test pilots posted to the experimental flying squadron efs it was there that he worked with scientists from the defense research agency dra at bedford and farnborough on a number of cutting edge technologies specializing in ship helicopter interface testing in addition to flying the westland wessex lynx and sea king chris was able to act as an evaluation pilot in the hunter jaguar andover hawker siddeley hs748 and the comet during his time as an active test pilot efs was merged into three platform squadrons which gave chris the chance to play a full part in conventional release to service activities in a wide variety of rotorcraft asked to take on the role of a flight test instructor fti chris served at etps where he made sweeping changes to the syllabus acquired a new helicopter type and had to deal with a number of students who could not cope with the rigors of the course in his first year he suffered a flame out in a hawk jet an engine failure during his first flight in the twin

engine basset and crashed the school's westland scout helicopter all of which are fully discussed following four successful years teaching helicopter flight test chris was recruited to manage the etps short course portfolio this required the design sale and delivery of numerous flight test courses while also introducing innovative teaching methods and the use of civil registered aircraft in this new exciting and rewarding role chris taught both fixed wing and rotary wing students and the book explains the difficulties of learning the additional skills and flight test techniques required of a fixed wing test pilot this autobiography explores the military flight test career of an individual who is arguably one of the best qualified and most experienced test pilots working today anywhere in the world
