an increasing number of educators are arguing for conceptually sound reflective or inquiry oriented teacher education programs the argument is based on the fact that reflective teaching is possible and the belief that teachers should develop habits of consciously informed action those who promote reflective teaching argue for teacher empowerment within a self renewing profession reflective teacher education offers case studies from seven universities that have organized teacher education programs around the concept of reflection the cases represent public and private institutions and alternative and traditional

models of teacher preparation the studies represent efforts to transform the entire professional education component rather than individual courses or isolated strategies the volume also considers reflection as a conceptual orientation commenting on its power to inform and improve teacher education and assessing the implementation of reflection in these specific programs the six critiques raise intriguing questions about the possibility and desirability of reflective reform efforts by viewing the cases from varying perspectives development cognitive feminist social reconstructionist and post modern
