with a history now stretching back four decades pacific festivals of aotearoa assert a multicultural identity of new zealand and situate the country squarely within a sea of islands in this volume jared mackley crump gives a provocative look at the changing demographics and cultural landscape of a place frequently viewed through a bicultural lens pākehā and māori taking the post world war ii migrations of pacific peoples to new zealand as its starting point the story begins in 1972 with the inaugural polynesian festival an event that was primarily designed as a māori festival now known as te matatini the largest māori performing arts event in the world two major moments of festivalization are considered the birth of polyfest in 1976 and the inaugural pasifika festival of 1993 both began in auckland the home of the largest pacific communities in new zealand and both have spawned a series of events that follow the models they successfully established while polyfests focus primarily on the transmission of performance traditions from culture bearers to the young largely new zealand born generations pasifika festivals are highly public community events in which diverse displays of material culture are offered up for consumption by both cultural tourists and pacific communities alike both models have experienced a significant period of growth since 1993 and here the author presents a thought provoking and wide ranging analysis to explain the phenomenon that has been called a pacific renaissance written from an ethnomusicological perspective the pacific festivals of aotearoa new zealand incorporates lively first person observations as well as interviews with festival organizers performers and other important historical figures the second half of the book delves into the festival space uncovering new meanings about the function and role of music performance and public festivity the author skillfully challenges accounts that label festivals as inauthentic recreations of culture for tourist audiences and gives both observers and participants an uplifting new approach to understand these events as meaningful and symbolic extensions of the ways diasporic pacific communities operate in new zealand

enter and explore the fascinating world of fungi in this practical and up to date guide forager and fungus enthusiast liv sisson shares her top tips and takes the reader on a journey to discover the unique and diverse fungi aotearoa has to offer discover how to identify the best edible varieties and how to cook with them how these incredible organisms have shaped the world as we know it and the role they are playing in modern medical and environmental research featuring stunning full colour photographs fun facts and current descriptions of over 130 species including our brilliant blue national fungus werewere kokako fungi of aotearoa is packed full of information and advice that will delight armchair enthusiasts backcountry explorers and budding experts alike

the moral values and interpretive systems of religions are crucially involved in how people imagine the challenges of sustainability and how societies mobilize to enhance ecosystem resilience and human well being the routledge handbook of religion and ecology provides the most comprehensive and authoritative overview of the field it encourages both appreciative and critical angles regarding religious

traditions communities attitude and practices it presents contrasting ways of thinking about religion and about ecology and about ways of connecting the two terms written by a team of leading international experts the handbook discusses dynamics of change within religious traditions as well as their roles in responding to global challenges such as climate change water conservation food and population it explores the interpretations of indigenous traditions regarding modern environmental problems drawing on such concepts as lifeway and indigenous knowledge this volume uniquely intersects the field of religion and ecology with new directions within the humanities and the sciences this interdisciplinary volume is an essential reference for scholars and students across the social sciences and humanities and for all those looking to understand the significance of religion in environmental studies and policy

this book brings the key ideas and concepts of social realism to bear on current debates in the fields of knowledge and curriculum the key concern of this collection is to highlight matters related to knowledge and the influence these dimensions have on the formation of curricula pedagogy identity and equity in educational contexts presenting new perspectives on the place of various types and forms of knowledge in contemporary education this book explores two central questions what type of knowledge is most important to include in a curriculum and what is meant by disciplinary knowledge the chapters use empirical examples to illustrate how the issues play out on a global stage interweaving the social justice concern of equitable access to disciplinary knowledge throughout in particular the authors address the emerging theorisation of issues related to the decolonisation of curricula the recontextualisation of non traditional knowledge into the curriculum and teacher education offering new philosophical and theoretical perspectives this book will be of interest to researchers scholars and students examining the fields of knowledge and curriculum and the sociology of education more broadly

part two gives a first hand account of the building and sailing of the voyaging canoe hawaiki nui which sailed from tahiti to aotearoa in late 1985 introd

beginning with an overview of european representations of the pacific michelle keown presents a broad ranging introduction to the postcolonial literatures of the pacific from the late 1960s through to the new millennium focusing mainly on writing in english but also exploring the growing corpus of francophone and hispanophone pacific writing
