reveals the transformative spiritual work by which the soul can reach ever higher dimensions of consciousness relates the soul levels of the zohar to the various paths the soul may travel toward ultimate realization introduces a new meditative technique called the transformative moment throughout the history of the jewish esoteric tradition humankind has been understood to play a pivotal role in the perfection of the cosmos uniting the finite with the infinite in the perfection of divine personality working from an original synthesis of the major kabbalistic traditions of cosmology derived from the bible the zohar and the school of isaac luria leonora leet has erected a new framework for understanding the mechanism of the transformative spiritual work that enables the human soul to reach

increasingly higher dimensions of consciousness this analysis extends the frontiers of leet s prior works on the kabbalah to provide a new illumination of human possibilities leet first considers the false temptations of worldly power and pleasure that lead to the fall of the soul and then the means of its redemption she develops a powerful meditative technique called the transformative moment whose workings are exemplified by jacob and joseph and that allow the individual to progress through all the higher levels of the soul even possibly to attain the miraculous powers of the legendary spiritual masters she further correlates the hierarchy of soul levels with ezeziel s throne vision to show the various paths the soul may travel toward self realization sex love power knowledge holiness and unification the first four paths relate to the four faced living creatures chayot of ezeziel s throne vision the bull ox lion eagle and man the final two paths correlate to the prophet and the envisioned man on the throne he recognizes to be his divine higher self the knowledge that defines the secret doctrine of the whole of the jewish mystical tradition culminating in the kabbalah

third edition god the universe and man their essential unity and fundamental attributes as seen through the eyes of jewish esoteric tradition is the subject of leo schaya s masterly study of the kabbalah unlike most works on the subject which focus on the history of the kabbalah or the kabbalah as literature not to mention countless new age rants this penetrating text expounds the universal teachings of the kabbalah on the relationships of all things to their supreme archetypes the ten sephiroth or principal aspects of god in addition to the old testament and the talmud schaya draws on one of the classical sources of jewish mysticism the zohar or book of splendor from which he extracts an all embracing synthesis of the numberless degrees of all reality to which correspond the multiple states of human being from earthly individuality to essential identity with the absolute this work acclaimed by reviewers and scholars alike fittingly concludes with an illuminating chapter on the name of god which saves all those who invoke him in truth students of comparative religion will find an abundance of information here for striking parallels both with the hindu cosmological doctrines and the metaphysical insights of the vedantic sages are among the surprises interlaced in this account of judaic esoteric wisdom in this schaya carries on the extraordinary work of three great 20th century metaphysicians of the philosophia perennis ren gunon frithjof schuon and ananda k coomaraswamy this book will be extremely useful to anyone who is in the words of maimonides perplexed by the bible in the sense of having exercised his best thinking about it and who now stands broken before its apparent contradictions and its overwhelming emotional authority the kabbalah or esotericism is the communication to man of what schaya calls principal ideas ideas that are to thought and actions what the sun is to its rays standing between metaphysical ideas and the symbolic language of the zohar and the old testament he allows each side to penetrate the other jacob needleman author of lost christianity a sense of the cosmos etc this book fills an urgent need to rediscover

the deepest meaning of the old testament is something that could have had a most tonic and enlightening effect on the whole of christian thought today no clearer interpreters are to be found than the masters of the kabbalah marco pallis author of the way and the mountain a buddhist spectrum etc leo schaya was born in switzerland in 1916 he received a traditional jewish upbringing but from an early age devoted himself to the study of the great metaphysical doctrines of east and west particularly those of neoplatonism sufism and theadvaita vedanta his works include in addition to the universal meaning of the kabbalah first published in french in 1958 as *l'homme et l'absolu selon la kabbale la doctrine soufique de l'unit la cration en dieu la lumire du judasme du christianisme et l'islam* and *naissance l'esprit* as well as numerous articles

practical kabbalah ø the german humanist johann reuchlin 1455 1522 defended the value of jewish scholarship and literature when it was unwise and unpopular to do so as g lloyd jones points out a marked mistrust of the jews had developed among christian scholars during the later middle ages it was claimed that the rabbis had purposely falsified the text of the old testament and given erroneous explanations of passages which were capable of a christological interpretation christian scholars most certainly did not advocate learning the hebrew language ø reuchlin was exceptional in pursuing and promoting hebrew studies believing that a working knowledge of that language was essential for a true appreciation of the bible and rabbinic literature refusing to join christian contemporaries who wished to destroy the kabbalah and the talmud he spoke out against ignorance christians could have a useful dialogue with jews if they gained a thorough knowledge of the writings of jewish exegetes and philosophers toward that end he proposed university endowments that aroused the fury of opponents and led to the famous battle of the books ø reuchlin s keen interest in jewish mysticism resulted in the publication of *de arte cabalistica* in 1517 the first part of this dialogue reflects on messianism the second part on the relation of the pythagorean system to the kabbalah and the third on the practical kabbalah according to jones reuchlin demonstrates how christians can make profitable use of jewish mystical writings and therefore shares with the reader his understanding of the art of the kabbalah that art will reach more readers in this modern english language translation by martin and sarah goodman it reinforces the historical importance of the man who prevented the destruction of jewish books and anticipated the more liberal climate of the reformation

if he had lived among the greeks he would now be numbered among the stars so wrote gottfried wilhelm leibniz in his epitaph for francis mercury van helmont leibniz was not the only contemporary to admire and respect van helmont but although famous in his own day he has been virtually ignored by modern historians yet his views influenced leibniz contributed to the development of modern science and fostered the kind of ecumenicalism that made the concept of toleration conceivable the progressive nature of van helmont s thought was based on his deep commitment to the esoteric doctrines of the lurianic kabbalah with his friend christian knorr von rosenroth van helmont edited the *kabbala denudata* 1677 1684 the largest collection of lurianic kabbalistic texts available to christians up to that time because the subject matter of this work appears so difficult and arcane it has never been appreciated as a significant text for understanding the emergence of modern thought however one can find in it the basis for the faith in science the belief in progress and the pluralism characteristic of later western thought the lurianic kabbalah thus deserves a place it has never received in histories of western scientific and cultural developments although van helmont s efforts contributed to the development of religious toleration his experience as a prisoner of the inquisition accused of judaizing reveals the problematic relations between christians and jews during the early modern period new inquisitional documents

relating to van helmont s imprisonment will be discussed to illustrate the difficulties faced by anyone advocating philo semitism and toleration at the time
