faber piano adventures the 2nd edition primer theory book provides important reinforcement and creative application of basic theory concepts students will enjoy note naming with storyrhymes exploring improvisation and engage with eye training and ear training activities all within a fun filled context tied thematically to the primer lesson book pieces

being sent for piano lessons was probably the single worst thing that could have happened in my young life but thanks to

an exceptional lady and piano teacher named Florence Powers I wound up unexpectedly becoming a professional piano player here are some curious things about the piano that I picked up along the way playing the piano has got to be one of life's greatest treasures in my estimation there are few other activities that can even begin to compare with the ability to play this amazing instrument as you can probably guess I have the highest regard for those individuals who have mastered the art of playing the piano some performers have taken the art to a very high level often out of the reach of most players but my aim here is to present a simple accessible approach on learning how to listen to or how to approach playing the piano for one's own pleasure first and foremost this self-centered idea doesn't necessarily imply being selfish but it probably does require a slight adjustment to one's priorities however if you can get around this inconvenience the possibilities are sitting right there in front of you and all you have to do is reach out and take my aim here is to demystify the piano for both listeners or those who wish to learn how to get started in learning how to play this amazing instrument in any event I feel that pleasure can be derived by having a wider understanding as just what the piano actually is and while a book such as this one may be helpful to those who wish to learn to play the piano there is no substitute for a live teacher however it's extremely important to find a teacher that can fulfill one's personal musical taste and ambition there is much involved if a student wishes to become a proficient music reader thus having a good teacher is essential to success in this area take your time in finding the right one and good luck however before looking at the piano it's also important to establish what kind of music one is interested in whether for listening or performing for purposes of this book I have arbitrarily broken it down into four major forms classical standards popular and jazz classical leads the list as the music that has been around longer much longer than the other two forms of music it represents the foundation of all of today's music much of it is seriously challenging to play and requires years of dedicated practice at the concert level olympic style discipline prevails as the techniques of performance far surpasses the scope of this book be that as it may

classical music has an abundance of priceless melodies that can be played in a simplified manner while still retaining their pure magic for listeners and pianists. Music operates on principles that were founded in the past 600 years; they carry with them an enormous amount of human cultural genius, including the invention of equal temperament.

Faber Piano Adventures Level 5 continues to build musicianship with the circle of 5ths, cadences, flat key signatures, and the three forms of the minor scale. The use of octaves, arpeggios, and dynamic playing across the range of the keyboard develops pianistic skills. Contents include: Autumn Ballad, Ballade, Burgmüller, Blue Etude, Carillon, Fantasia, The Chase, Burgmüller, Coral Reef Etude, Fanfare on America, Hot Pursuit, Jazz Reflection, Pomp and Circumstance, Rhythm Flight, Risoluto, Rolling River Etude, and more.

Faber Piano Adventures contents include: Stuffing the Stockings, Interval Review, Angels We Have Heard on High, Deck the Halls, Jingle Bells, O Come All Ye Faithful, O Come Little Children, Up on the Housetop, We Three Kings of Orient Are.
