in dissident practices claudia calirman examines sixty years of visual art by prominent and emerging brazilian women artists from the 1960s to the present covering the period from the military dictatorship to the return to democracy in the mid 1980s the social changes of the 2000s the rise of the right in the late 2010s and the recent development of an overtly feminist art practice though they were lauded as key figures in brazilian art these artists still faced adversity and constraints because of their gender although many of them in the 1960s and 1970s disavowed the term feminism calirman gives a nuanced account of how they responded to authoritarianism engaged with trauma in the aftermath of the military dictatorship interrogated social gender norms and fought against women s objectification by battling social inequalities structures of power and state violence these artists create political agency in a society in which women remain targets of brutality and discrimination

escher gunewardena founded in los angeles in 1996 reached international recognition through a range of projects commercial spaces treated as conceptual art works hillside residences representing poetic responses to particular site conditions work in historic

preservation including such icons as the eames house and john lautner s chemosphere in los angeles their collaborations with artists such as sharon lockhart mike kelley and stephen prina testify to their presence in the art world frank escher and ravi gunewardena are in part scholars artists architectural historians designers and architects don albrecht curator of architecture and design museum of the city of new york

religious horror and the ecogothic explores the intersections of anglophone christianity and the ecogothic a subgenre that explores the ecocritical in gothic literature film and media acknowledging the impact of christian ideologies upon interpretations of human relationships with the environment the ecogothic in turn interrogates spiritual identity and humanity s darker impulses in relation to ecological systems through a survey of ecogothic texts from the eighteenth century to the present day this book illuminates the ways in which a christianized understanding of hierarchy dominion fear and sublimity shapes reactions to the environment and conceptions of humanity s place therein it interrogates the discourses which inform environmental policy as well as definitions of the human in a rapidly changing world

chinese bibliography has a long history and tradition of its own going back two millennia it resembles critical bibliography incorporates key features of today s library cataloging and classification a branch of enumerative bibliography and shares significant common ground with intellectual history this rich bibliographic tradition has not intersected with other traditions and is known only to scholars of chinese bibliography intellectual history and classical studies in the field of knowledge organization it is a virtual unknown and thus presents excellent opportunities for research intellectual activism in knowledge organization is an interdisciplinary analysis of the chinese bibliographic tradition written for a wide audience in particular the study investigates the classification applied in the seven epitomes 七略 the first library catalog on record in chinese history completed a few years before the common era it is important to study this classification which is said to have established the model for the entire chinese bibliographic tradition where classification has always been an integral part and the sole mechanism for organization while influential neither the classificatory principles nor the structure of the classification are well understood in the book lee hur li conducts a hermeneutic study of three main aspects of the classification the classification s epistemology its overall classificatory mechanics and its concept of author as an organizing element taking a socio epistemological approach the study applies an analytical framework to the examination of the classification in its proper social cultural historical and technological contexts lee concludes by summarizing the major achievements of the classification and articulating implications of the findings for various disciplines
