a riveting firsthand account of one man's mission to investigate and document some of the most astonishing phenomena of our time: children who speak of past life memory and reincarnation all across the globe. Small children spontaneously speak of previous lives, beg to be taken home, pine for mothers and husbands and mistresses from another life and know things that there seems to be no normal way for them to know. From the moment these children can talk, they speak of people and events from the past, not vague stories of centuries ago but details of specific identifiable individuals who may have died just months, weeks or even hours before the birth of the child in question. For thirty-seven years, Dr. Ian Stevenson has traveled the world from Lebanon to suburban Virginia, investigating and documenting more than two thousand of these past life memory cases. Now his essentially unknown work is being brought to the mainstream by Tom Shroder, the first journalist to have the privilege of accompanying Dr. Stevenson in his fieldwork. Shroder follows Stevenson into the lives of children and families touched by this phenomenon, changing from skeptic to believer as he comes face to face with concrete evidence he cannot discount in this spellbinding and true story.

la historia real de un psiquiatra, su joven paciente y la terapia de regresión que cambió sus vidas para siempre. Un punto de encuentro entre ciencia y metafísica. El doctor Brian Weiss, jefe de psiquiatría del Hospital Mount Sinai de Miami, relata en éste su primer libro una asombrosa experiencia que cambió por completo su propia vida y su visión de la psicoterapia. Una de sus pacientes, Catherine, recordó bajo hipnosis varias de sus vidas pasadas y pudo encontrar en ellas el origen de muchos de los traumas que sufría. Catherine se curó, pero ocurrió algo todavía más importante: logró ponerse en contacto con los maestros espíritus superiores que habitan los estados entre dos vidas. Ellos le comunicaron importantes mensajes de sabiduría y de conocimiento. Este relato profundamente conmovedor, punto de encuentro entre ciencia y metafísica, constituyó un extraordinario best seller y sigue siendo de obligada lectura en un mundo convulsionado, en especial para los que buscan un sentido espiritual. Los mejores comentarios de los lectores sobre muchas vidas, muchos maestros impactante un libro que te obliga a realizar pausas de vez en cuando para asimilar y procesar las experiencias que relata. Tiene la credibilidad de una eminencia en psiquiatría y se asemeja en ocasiones al libro tibetano de los muertos. Pero bajo mi opinión hay que aceptar esta información y cogerlo con pinzas, ya que ningún hombre a lo largo de la humanidad murió y volvió para contarnos lo que hay en el más allá. Interesante lectura incluso para escépticos. He disfrutado su lectura a pesar de ser muy escéptico sobre estas cuestiones. Habitado a lectura científica, sentía una sana curiosidad por este libro: quería descubrir si se trataba de una farsa o tenía visos de

seriedad y tras su lectura no puedo sino recomendarlo se puede creer o no lo que en él se describe eso es cuestión de cada uno pero sin duda merece la pena su conocimiento un libro increíblemente interesante libro muy fácil de leer y de tremendo impacto las cosas que hablan y los temas que abordan deberían ser aprendidos en el colegio todo ser humano debería leer este libro y respetar las teorías que mencionan en el brian weiss es sin lugar a dudas un psiquiatra de prestigio que se atreve a abordar temas muy estigmatizados en nuestra época y sociedad actual
