in africa the emphasis on family marriage and offspring suggest that there is a kind of an unwritten ancestral law that imposes on every male the duty of begetting a son the reason is because the core of african soteriology is centered on offspring the predicament of the childless couples therefore stems from the desire for immortality and salvation that culminates in the admission of the dead into the ancestral world this quest for salvation and immortality constitute social emotional psychological and spiritual problems for christian as well as non christian childless couples

unlike many books about the afterlife life after death makes no appeal to religious faith divine revelation or sacred texts drawing on some of the most powerful theories and trends in physics evolutionary biology science philosophy and psychology d souza shows why the atheist critique of immortality is irrational it is not only reasonable to believe in life after death it is also beneficial such a belief gives depth and significance to this life a path to happiness and reason for hope

life and death in freud and heidegger argues that mortality is a fundamental structuring element in human life the ordinary view of life and death regards them as dichotomous and separate this book explains why this view is unsatisfactory and presents a new model of the relationship between life and death that sees them as interlinked using heidegger s concept of being towards death and freud s notion of the death drive it demonstrates the extensive influence death has on everyday life and gives an account of its structural and existential significance by bringing the two perspectives together this book presents a reading of death that establishes its significance for life creates a meeting point for philosophical and psychoanalytical perspectives and examines the problems and strengths of each it then puts forth a unified view based on the strengths of each position and overcoming the problems of each finally it works out the ethical consequences of this view this volume is of interest for philosophers mental health practitioners and those working in the field of death studies
