illustrating the development of esperanto literature from its humble beginnings in 1887 to its worldwide use in every literary genre today this text includes over 300 individual articles on the most important esperanto authors

this book addresses a fascinating topic a constructed language that has turned from a project into a fully fledged language used by some of its speakers on a daily basis based on extensive fieldwork this book provides rare and profound insights into the use of esperanto in a large number of communicative areas it studies the speakers use of code switching phraseology and metaphors techniques they employ to enhance understanding such as metacommunication and repair strategies as well as their predilection for humour the study also contributes to a comparison between the communication in esperanto and in the language that is now predominantly used as a lingua franca english and allows conclusions to be drawn on the question of what a lingua franca is all about

this collection explores the global impact of english through fact based and contrastive analyses of

different types of anglicisms across a wide range of languages this volume showcases the ways in which contact induced language change operates across several different languages simultaneously this approach allows for an examination of similarities and differences in the adaptation processes of english models in languages with differing phonetic morphological syntactic and writing systems drawing on data from the global anglicism database glad the first multilingual repository featuring lexical and phraseological anglicisms chapters look not only at visible anglicisms such as augmented reality or easy listening which reflect their english origin but also at invisible anglicisms cases in which english expressions are translated verbatim and cases when words in a recipient language change their meaning due to english influence this volume offers a multi layered perspective on how anglicisms develop and blend into different languages and readers are presented with a nuanced understanding of contact induced language change this book will appeal to students and scholars interested in language contact world englishes language policy and planning bilingualism and lexicography

multilingual perspectives in geolinguistics 2nd edition is a publication of the american society of geolinguistics created with the active participation of its japanese membership the 2nd edition is a significantly expanded version with new chapters contributed by special request of the editorial staff the editors in chief are professor wayne finke of baruch college city university of new york and professor hikaru kitabayashi of daito bunka university the object was to offer potential readers a more complete introduction to current literature dealing with geolinguistic themes than was the case with the first edition with geolinguistics being defined as the study of languages and varieties of language in contact and or conflict this 2nd edition also contains many small corrections to the original text and it is to be hoped that it will offer a more satisfying experience than was possible

with the first edition which due to its historical interest is being kept in print for the time being

language policies are increasingly acknowledged as being a necessary component of many decisions taken in the areas of the labor market education minority languages mobility and social inclusion of migrants they can affect the democratic control of political organizations and they can either entrench or reduce inequalities these are the central topics of this book economists philosophers political scientists and sociolinguists discuss from an interdisciplinary perspective the distributive socio economic effects of language policies their impact on justice and inequality at the national or international level as well as the connection between language choices and an inclusive access to public services the range of social and economic issues raised by linguistic diversity in contemporary societies is large and this requires new approaches to tackle them this book provides new input to design better more efficient and fair language policies in order to manage linguistic diversity in different areas topics covered include theoretical models of linguistic justice and linguistic disadvantage the assessment of the socio economic consequences of language policies the evaluation of the costs benefits and degree of inclusion of language planning measures the politics of migrants linguistic integration as well as multilingualism and economic activities these topics are discussed in different contexts including the areas inhabited by linguistic minorities cities receiving migrants and supranational organizations

the author of this book the german interlinguist and esperanto researcher detlev blanke 1941 2016 has influenced the study of planned languages like no one else it is to a large extent due to his lifelong scholarly devotion to this area of research that interlinguistics and esperanto studies esperantology have become serious subjects of study in the academic world in his publications blanke gives an overview of the history of language creation he describes the most important

planned language systems and presents various systems of classification a special focus is put on esperanto initiated by l l zamenhof in 1887 sabine fiedler for blanke a planned language was essentially a tool if it worked it was worthy of study and use if it failed to work he was interested in why though at the same time careful to avoid value judgments blanke himself spoke a planned language namely esperanto and recognised this language and language projects like it as arising out of a coherent theoretical base and addressing a recognisable problem essentially independently of the sociolinguistic school in the west blanke had reached a similar conclusion if a language phenomenon exists it is worthy of scholarly examination in itself blanke was particularly interested in how planned languages related to ethnic languages how the artificiality of say esperanto extended to indeed was synonymous with the artfulness of ethnic language and how planned language could solve taxonomic and terminological problems humphrey tonkin

a collection of 11 papers one in german and an interview in french with umberto eco the topics include the term planned language esperanto as a unique model for general linguistics a dialogue between sociolinguistic sciences and esperanto culture the experience of esperanto in developing a language for international law and machine translation no index annotation copyrighted by book news inc portland or

concise encyclopedia of languages of the world is an authoritative single volume reference resource comprehensively describing the major languages and language families of the world it will provide full descriptions of the phonology semantics morphology and syntax of the world s major languages giving insights into their structure history and development sounds meaning structure and language family thereby both highlighting their diversity for comparative study and contextualizing them according to their genetic relationships and regional distribution based on the

highly acclaimed and award winning encyclopedia of language and linguistics this volume will provide an edited collection of almost 400 articles throughout which a representative subset of the world s major languages are unfolded and explained in up to date terminology and authoritative interpretation by the leading scholars in linguistics in highlighting the diversity of the world s languages from the thriving to the endangered and extinct this work will be the first point of call to any language expert interested in this huge area no other single volume will match the extent of language coverage or the authority of the contributors of concise encyclopedia of languages of the world extraordinary breadth of coverage a comprehensive selection of just under 400 articles covering the world s major languages language families and classification structures issues and dispute peerless quality based on 20 years of academic development on two editions of the leading reference resource in linguistics encyclopedia of language and linguistics unique authorship 350 of the world s leading experts brought together for one purpose exceptional editorial selection review and validation process keith brown and sarah ogilvie act as first tier guarantors for article quality and coverage compact and affordable one volume format makes this suitable for personal study at any institution interested in areal descriptive or comparative language study and at a fraction of the cost of the full encyclopedia

this book consists of a collection of papers that focus on esperanto as either a tool or a domain of academic activity esperanto is a well established and significant linguistic and cultural phenomenon involving well over a million inhabitants of the globe by argument and example this collection implicitly raises the question whether the humanities and social sciences can continue to ignore this phenomenon without disavowing their role as human sciences contents preface can an artificial language be more than a hobby the linguistic and sociological obstacles saul levin
