nils petter gleditsch international peace research institute oslo prio department of
sociology and political science norwegian university of science and technology
trond heim this book could hardly have happened but for the end of the cold war the
decline of the east west conflict has opened up the arena for increased attention to
other lines of conflict in europe and at the global level environmental disruption not
a new phenomenon by any means is a chief beneficiary of the shift in priorities in
the public debate the scientific and environmental affairs division of nato has
moved with the times and has defined environmental security as one of its priority
areas for cooperation with central and eastern europe and countries of the former
soviet union this book is the main output of an advanced research workshop arw
held in bolkesjl l norway 12 16 june 1996 i would like to acknowledge the personal
support of l veiga da cunha director of the priority area on environmental security
research on these issues is now very much a collaborative effort across former lines
of division in europe nato encourages indeed requires that this be reflected in the
composition of the participants as well as the organizing committee this meeting

was organized by a group of five people from five different countries lothar brock germany nils petter gleditsch norway thomas homer dixon canada renat perelet co director russia and evan vlahos usa

the environment has always been a central concept for archaeologists and although it has been conceived in many ways its role in archaeological explanation has fluctuated from a mere backdrop to human action to a primary factor in the understanding of society and social change archaeology also has a unique position as its base of interest places it temporally between geological and ethnographic timescales spatially between global and local dimensions and epistemologically between empirical studies of environmental change and more heuristic studies of cultural practice drawing on data from across the globe at a variety of temporal and spatial scales this volume resituates the way in which archaeologists use and apply the concept of the environment each chapter critically explores the potential for archaeological data and practice to contribute to modern environmental issues including problems of climate change and environmental degradation overall the volume covers four basic themes archaeological approaches to the way in which both scientists and locals conceive of the relationship between humans and their environment applied environmental archaeology the archaeology of disaster and new interdisciplinary directions the volume will be of interest to students and established archaeologists as well as practitioners from a range of applied disciplines

lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the nasa scientific and technical information database

economic development that is environmentally socially and ethically sound is at the forefront of contemporary debates all over the world this is especially relevant to international trade where goods manufactured in least developed countries ldc are being exported to developed countries dc via international supply chains this book looks at bangladesh s ready made garments rmg industry the seventh largest in the

world facing demands for environmental and social management according to standards set by consumers in environmentally progressive societies apart from these concerns not having found cultural or institutional resonance in bangladesh the pressures for cost reduction on time delivery and cheap labour in a highly competitive international market make the problem that much more complex in this book selim uses the analytical framework provided by the ecological modernisation theory to examine the economic communicative and social political aspects of ethical trade and argues that the economy ecology relationship can indeed be a positive sum game if nation states and economic actors change their policymaking styles and greening behaviour to take advantage of scientific evidence and green technological opportunities

the first comprehensive examination of alaskan development schemes from 1890 to the present focuses on five major conflicts between environmentalists and developers from reindeer herding to the trans alaska pipeline takes readers behind common and simplistic representations of the state to explore the rich history and extreme diversity of a land that cannot easily be pigeonholed into typical american conceptions about place

this work offers an assessment of private capital flows to emerging market countries and their impacts on the environment It emphasises the critical role that private capital plays in the financial transfers from post industrial to developing nations far e ceeding foreign aid

by richard stalling and ronald wasden of bradley university this study guide includes a review of key ideas people and terms complete with fill in the blank short answer and matching questions this is followed by a self quiz made up of multiple choice questions the study guide is organized around learning objectives those same learning objectives that are included in the test bank

As recognized, adventure as well as experience very nearly lesson,

amusement, as skillfully as union can be gotten by just checking out a books
