earth science which in this context does not include oceanic atmospheric and space sciences is vital to the wellbeing of the united states and many of its issues such as water resources are expected to grow in importance an earth science workforce will be needed to deal with this issues and it s important that this workforce draw on the talents of all citizens thus federal education programs can be implemented to help attract and retain students on an earth science pathway however tight funding means agencies need to invest in programs that actually work as a result the u s geological survey usgs office of science quality and integrity asked the national research council nrc to establish a committee to carry out a study organized around a workshop to address several tasks including examining recent earth science education programs with a research or training component both formal and informal in these federal agencies indentifying criteria and the results of previous federal program evaluations and summarizing the knowledge and skills identified in recent nrc workforce reports that are needed by earth scientists in their careers preparing the next generation of earth scientists an examination of federal education and training programs presents the

committee's finding the investigation was completed through information provided by federal agency managers and published articles and reports a 2 day workshop was also held to examine federal earth science education programs and efforts to leverage resources the report includes the workshop agenda a glossary of abbreviated terms and more

you built the killer case flawless logic sexy data slides that could win a corporate beauty pageant and what happened your customer picked your competitor or your boss chose his own recycled dusty idea from 2019 then they explained it with the dumbest reasons you've ever heard so of course you thought i was two seconds away from calling them complete idiots but here's the twist they weren't being stupid they just ordered for themselves and your dish wasn't on the menu this isn't a normal business book it's what happens when you take behavioral science neuroscience psychology and real business strategy and put them together to answer one simple question how do you actually make people say yes and take action and it's not theory or jargon it's explained with real situations you already know you your boss your customers that colleague whose bad ideas keep getting approved and the real moves entrepreneurs used to turn small ideas into companies everyone now thinks were always going to succeed because here's the problem what they taught you in business school was expensive fiction every mba program every management textbook every consultant deck tells the same fairytale about decision making people spot a problem gather information weigh alternatives and then pick the optimal solution it sounds scientific it sounds professional but it's fantasy real life doesn't work like that this book speaks neuroscience not business school fiction your brain actually has two systems making decisions the first is the emotional side your ancient survival processor that's been keeping humans alive for millions of years it's insanely fast reacts in milliseconds and it operates completely outside your awareness it doesn't talk it doesn't do logic it just fires gut reactions based on feelings the second is the analytical side your slow deliberate articulate processor that's the voice in your head that sounds smart and professional it loves weighing options building arguments and writing long explanations for choices you already made same brain two operating systems so picture it like this a giant ancient fish silent moving toward warm water away from danger following the group that's your emotional system pure instinct then picture a well dressed general articulate strategic making plans calculating incentives presenting frameworks speaking in full sentences about optimal outcomes that's your analytical system this whole book is your invitation to accept one uncomfortable truth humans don't buy spreadsheets and by spreadsheets i mean logic evidence numbers data all the rational firepower you thought would finally make them say yes most of the time it doesn't not your calculation not your competitive matrix not that slide deck you redesigned seventeen times because what actually decides is the fish not the general so here's what's coming where behavioral economics

and psychology finally meet monday morning business decisions turn the page and you ll see why your last pitch really failed and why it had nothing to do with the quality of your logic

reclaim your biological birthright fix your mind crush weakness and lead unapologetically being told your ambition is toxic while society demands you sacrifice for others losing your edge to therapy and pills that pathologize masculine drive doubting your instincts because modern culture calls leadership a privilege not biology this book is not for the weak it s for men ready to delete hypochondria by rewiring pain into power no doctors no meds weaponize manic energy to dominate your field not numb it with s s r i s hack testosterone s role in winning wall street traders and navy s e a l s don t apologize for it escape feminism s double bind mocked for vulnerability demonized for strength reject mental prisons of guilt spartans didn t journal feelings they conquered silence hypochondria with stoic rituals not self pity rebuild fatherhood legacies stolen by courts and therapists trigger your hephaestus fire to innovate like newton and outwork musk if you want to crush weakness defy gynocentric lies and dominate like biology designed you to buy this book today
