The first reference on rationality that integrates accounts from psychology and philosophy covering descriptive and normative theories from both disciplines both analytic philosophy and cognitive psychology have made dramatic advances in understanding rationality but there has been little interaction between the disciplines this volume offers the first integrated overview of the state of the art in the psychology and philosophy of rationality written by leading experts from both disciplines the handbook of rationality covers the main normative and descriptive theories of rationality how people ought to think how they actually think and why we often deviate from what we can call rational it also offers insights from other fields such as artificial intelligence economics the social sciences and cognitive neuroscience the

handbook proposes a novel classification system for researchers in human rationality and it creates new connections between rationality research in philosophy psychology and other disciplines following the basic distinction between theoretical and practical rationality the book first considers the theoretical side including normative and descriptive theories of logical probabilistic causal and defeasible reasoning it then turns to the practical side discussing topics such as decision making bounded rationality game theory deontic and legal reasoning and the relation between rationality and morality finally it covers topics that arise in both theoretical and practical rationality including visual and spatial thinking scientific rationality how children learn to reason rationally and the connection between intelligence and rationality

many scholars see democracy and islam as incompatible however history has shown that muslims were the pioneers of a democratic system 1400 years ago this book illustrates the fact that muslim nations can establish a democratic political system based upon islamic teachings and principles democracy must be a homegrown political system that meets not only the political demands of a nation but also the cultural demands in order for a democracy to work in the nation it is being presented it must align with the people's values and culture simply being a worldwide political system is not enough the time has come for muslim nations to adopt a system that meets the demands of muslims and non muslims alike for the sake of peace and justice for all this is the theme of islamic democracy that this book is attempting to portray for the middle east

this is the first international and inter disciplinary social science handbook on health and medicine five years in the making and building on the insights and advice of an international editorial board the book brings together world class figures to provide an indispensable comprehensive resource book on social science health and medicine pinpointing the focal issues of research and debate in one volume the material is organized into three sections social and cultural frameworks of analysis the experience of health and illness and health care systems and practices each section consists of specially commissioned chapters designed to examine the vital conceptual and methodological practice and policy issues readers recei
