this book explores the interweaving of several of derrida's characteristic concerns with themes that paul explores in romans it argues that the central concern of romans is with the question of justice a justice that must be thought outside of law on the basis of grace or gift the many perplexities that arise from thus trying to think justice outside of law are clarified by reading derrida on

such themes as justice and law gift and exchange duty and debt hospitality cosmopolitanism and pardon this interweaving of paul and derrida shows that paul may be read as a thinker who wrestles with real problems that are of concern to anyone who thinks it also shows that derrida far from being the enemy of theological reflection is himself a necessary companion to the thinking of the biblical theologian against the grain of what passes for common wisdom this book argues that both derrida and paul are indispensable guides to a new way of thinking about justice

this book offers a close reading of romans that treats paul as a radical political thinker by showing the relationship between paul s perspective and that of secular political theorists turning to both ancient political philosophers plato aristotle and cicero and contemporary post marxists agamben badiou derrida and Žižek jennings presents romans as a sustained argument for a new sort of political thinking concerned with the possibility and constitution of just socialities reading romans as an essay on messianic politics in conversation with ancient and postmodern political theory challenges the stereotype of paul as a reactionary theologian who invented christianity and demonstrates his importance for all regardless of religious affiliation or academic guild who dream and work for a society based on respect rather than domination division and death in the current context of unjust global empires constituted by avarice arrogance and violence jennings finds in paul a stunning vision for creating just societies outside the law

bringing practicality back to the work of forgiveness for counselors and pastors much work in both academic and clinical counseling has focused on forgiveness and what precisely it means we now know forgiveness offers both physical and psychological benefits yet despite all this exploration most christians are far from having a clear consistent theologically informed definition bryan maier wants this conceptual ambiguity to end especially for the pastor or counselor sitting across from a hurting person seeking immediate practical help the christian counselor needs to be able to walk the client through the question can forgiveness coexist with justice to this end maier examines current popular models of forgiveness considering where they merge and diverge and what merits each type of forgiveness has he then delves directly into scripture to discover the original model of god s forgiveness to humankind from there he builds a new construct of human forgiveness with practical guidance to help those in counseling understand the concept theologically in doing so he demonstrates that our understanding that forgiveness leads to healing is inverted being whole leads to true forgiveness not the other way around forgiveness and justice is extremely useful for any practitioner needing to form a useful

theologically sound understanding of forgiveness for those who come for help

the world is groaning beneath a seemingly endless cycle of oppression and injustice this is particularly evident in africa where colonization racism and violent conflicts have left deep scars on both nations and peoples in this collection of essays theologians from across africa draw from their nations painful histories to grapple with the complex questions of reconciliation forgiveness and healing using examples of religious ethnic and tribal conflicts across the continent these essays explore reconciliation and justice in the context of liberation theology biblical studies ecclesiology and pastoral care an excellent resource for peacemakers and academics alike this book offers a powerful and contextualized vision of the gospel s power to restore justice and offer true hope to a wounded world

the essays in this volume address a closely interconnected set of questions to be true to its mission what function is the church meant to perform what does the faith of christians contribute to the human perception of justice what is the theological significance of action undertaken by christians for political or social transformation is justice to be looked on as one of the moral virtues that it is incumbent on christians to practice or has it a more intrinsic link to the gift of faith which christians have received does the following of christ call christians away from social systems into the new creation or is the call extended to them to concern themselves with the social systems which shape human beings from the foreword contributors include avery dultes william dych john donahue john langan david hollenbach richard roach william walsh

this book presents the enduring debates and emerging challenges in crime and justice studies from an international and multi disciplinary perspective

this book seeks to demonstrate that the letter to the romans may be seen as an attempt by a subordinate group to redress actual and potential issues of confrontation with the empire and to offer hope even in the crisis of facing death paul demonstrates that it is god s peace and not rome s peace that is important that loyalty to the exalted jesus as lord and to the kingdom of god not jupiter and rome leads to salvation that grace flows from jesus as christ and lord and not from the benefactions of the emperor if the resurrection of jesus the crucified criminal of the roman empire demonstrates god s power over the universe and death the very instrument of roman control then the christ believer is encouraged to face suffering and death in the hope of salvation through this power paul s theology

emerges from and is inextricably bound to the politics of his day the scriptures of his people and to the critical fact that the god who is one and lord of all is still in charge of the world

performing justice for the future of our time whatever happened to théâtre populaire the unfinished history of people s theatre in france staging the wende some 1989 east german productions and the flux of history the starving body on the elizabethan and jacobean stage the supernatural and the representation of justice in shakespeare s theatre

how the medieval right to appoint a parson helped give birth to english common law appointing a parson to the local church following a vacancy an advowson was one of the most important rights in medieval england the king the monasteries and local landowners all wanted to control advowsons because they meant political social and economic influence the question of law turned on who had the superior legal claim to the vacancy which was a type of property at the time the position needed to be filled in tracing how these conflicts were resolved joshua c tate takes a sharply different view from that of historians who focus only on questions of land ownership and he shows that the english needed new legal contours to address the questions of ownership and possession that arose from these disputes tate argues that the innovations made necessary by advowson law helped give birth to modern common law and common law courts

fowler provides an innovative critical exploration of ethical issues in children s upbringing through the lens of political philosophy calling for a radical new understanding of what constitutes wellbeing the duties of parents and the collective obligations of state and society in guaranteeing children flourishing lives

the return of emotions to debates about crime and criminal justice has been a striking development of recent decades across many jurisdictions this has been registered in the return of shame to justice procedures a heightened focus on victims and their emotional needs fear of crime as a major preoccupation of citizens and politicians and highly emotionalised public discourses on crime and justice but how can we best make sense of these developments do we need to create emotionally intelligent justice systems or are we messing recklessly with the rational foundations of liberal criminal justice this volume brings together leading criminologists and sociologists from across the world in a much needed conversation about how to re calibrate reason and emotion in crime and justice today the contributions range from the micro analysis of emotions in violent encounters to the paradoxes and tensions that arise from the emotionalisation of criminal justice in the public sphere they

explore the emotional labour of workers in police and penal institutions the justice experiences of victims and offenders and the role of vengeance forgiveness and regret in the aftermath of violence and conflict resolution the result is a set of original essays which offer a fresh and timely perspective on problems of crime and justice in contemporary liberal democracies

territory democracy and justice brings together experts from six countries to ask what territorial decentralization does and what it means for democracy policymaking and the welfare state integrated and international in a fragmented field the chapters identify the importance and consequences of territorial decentralization the authors analyze the successes the generalizable ideas and the international lessons in the study of comparative territorial politics as well as new directions for research

world renowned scholar michael gorman examines the important pauline theme of participation in christ and explores its contemporary significance for christian life and ministry one of the themes gorman explores is what he calls resurrectional cruciformity that participating in christ is simultaneously dying and rising with him and that cross shaped living infused with the life of the resurrected lord is life giving throughout the book gorman demonstrates the centrality of participating in christ for paul s theology and spirituality
