essays in collection argue that latin american legal institutions were both mechanisms of social control and unique arenas for ordinary people to contest government policies and resist exploitation

the amparo suit is a mexican legal institution similar in its effects to such anglo american procedures as habeas corpus error and the various forms of injunctive relief it has undergone a long evolution since it was incorporated into the constitution of 1857 today its principal purpose is to protect private individuals in the enjoyment of the rights guaranteed by the first twenty nine articles of the constitution mexico after its independence produced many constitutions one of the earliest problems was to find an adequate means of defending the constitution against ill founded interpretations of its precepts like the united states mexico has developed a system of constitutional defense in which the judiciary is the supreme interpreter of what this document means unlike the united states supreme court however the mexican supreme court has not been innovative in its decisions or contradicted the administration on major policy decisions this difference must be attributed to the civil law system of mexico as well as to the political climate the first part of richard d baker s book describes the historical background of amparo and other methods of constitutional defense in mexico the three men most closely associated with creating a judicial form of constitutional defense in mexico were manuel crescencio rejón josé fernando

ramírez and mariano otero their own writings indicate that the immediate source of amparo must be found in the american institution of judicial review that was transmitted to mexicans through alexis de tocqueville s democracy in america the second part is an exposition of the workings of the amparo suit in the twentieth century and the constitutional and statutory provisions affecting it since 1857 when it was incorporated into article 102 of the constitution the amparo suit has evolved into a highly complex institution performing three functions the defense of the civil liberties enumerated in the first twenty nine articles of the constitution the determination of the constitutionality of federal and state legislation and cassation the supreme court is primarily limited to defending civil liberties through the amparo suit it remains less innovative and more restricted than the united states system of judicial review especially in the effect of its judgments on political agencies baker s study is the first one in english dealing with this subject and is one of the most extensive in any language it should be welcome as a valuable tool to all students of mexican law history and political thought

first multi year cumulation covers six years 1965 70

a celebrity in his own day who gave lectures dressed as napoleon or seated on the back of an elephant ramâon gâomez de la serna is the most representative writer of the interwar spanish avant garde this book explores gâomez de la serna s art and his quest to break down the barriers between literature and life addressing two elements already present in his work of radical relevance in today s cultural debates the relation of the human being to the material world and the reduction of all experience to a singular individuality bringing gâomez de la serna to an anglophone audience it reveals him to be the embodiment of a new kind of art on both sides of the atlantic
