in this provocative and readable volume eleven leading constitutional authorities challenge business as usual in american
foreign policymaking for far too long they contend americans have acquiesced to presidential claims to sweeping
executive powers in foreign affairs thanks to imperial minded presidents a weak willed congress and neglectful scholars
these authors forcefully argue that the president is not the supreme crafter of foreign policy and that congress must
provide more than a rubber stamp for the president s agenda unilateral presidential control of foreign relations they warn
can pose a grave threat to our nation s welfare and is simply without constitutional warrant combining constitutional
theory with keen historical insights these authors illuminate the roots of presidential abuse of executive power and remind
us of the past and potential costs of such disregard for our unique system of checks and balances an essential guide for all
concerned citizens and members of congress this volume should help revive a proper understanding of this crucial
dimension of american democracy

zachary a smith and john freemuth bring together a roster of top scholars to explicate the unique policies and politics in
the west as well as other key questions in this new edition of environmental politics and policy in the west which was first
