published in 1926 this book has been written as a tribute to a great englishman and with the hope that

it may throw light upon some of the difficult problems which to day confront british statesmanship in the domain of freignrelations and policy

this book provides a comprehensive review of the theory of international trade and trade policy including coverage of recent areas of research such as heterogeneous firm trade models and trade costs it then proceeds to analyze the history of trade policies and the evolution of the global trading system with a primary focus on important policies or controversial issues such as the doha round antidumping duties regionalism and fair trade it aims to emphasize the significance of different theories and how they are interconnected unlike other technique driven international economics textbooks this book focuses on readers understanding how theory and policy are connected written in a lecture note format and in a straightforward manner the presentation is self contained with no assumed mathematical knowledge

when it was published in 2008 richard thaler and cass sunstein s nudge improving decisions about health wealth and happiness quickly became one of the most influential books in modern economics and politics within a short time it had inspired whole government departments in the us and uk and others as far afield as singapore one of the keys to nudge s success is thaler and sunstein s ability to create a detailed and persuasive case for their take on economic decision making nudge is not a book packed with original findings or data instead it is a careful and systematic synthesis of decades of research into behavioral economics the discipline challenges much conventional economic thought which works on the basis that overall humans make rational decisions by focusing instead on the irrational cognitive biases that affect our decision making these seemingly in built biases mean that certain kinds of economic decision making are predictably irrational thaler and sunstein prove themselves experts at creating persuasive arguments and dealing effectively with counter arguments they conclude that if governments understand these cognitive biases they can nudge us into making better decisions for ourselves entertaining as well as smart nudge shows the full range of reasoning skills that go into making a persuasive argument

this companion offers an overview of richard m nixon s life presidency and legacy as well as a detailed look at the evolution and current state of nixon scholarship examines the central arguments and scholarly debates that surround his term in office explores nixon s legacy and the historical significance of his years as president covers the full range of topics from his campaigns for congress to his career as vice president to his presidency and watergate makes extensive use of the recent paper and electronic releases from the nixon presidential materials project

a comprehensive reference work which provides a way to access research on urban politics and policy in the united states experts in the field guide readers through major controversies while evaluating and assessing the subfields of urban politics and policy each chapter follows the same basic organization with topics such as methodological and theoretical issues current states of the field and directions for future research for students this work provides a starting place to guide them to the most important works in a particular subfield and a context to place their work in a larger body of knowledge for

scholars it serves as a reference work for immediately familiarity with subfields of the discipline including classic studies and major research questions for urban policymakers or analysts the handbook provides a wealth of information and allows quick identification of existing academic knowledge and research relevant to the problem at hand

just because milwaukee isn't manhattan doesn't mean that those urban centers face completely unique challenges through effective comparative analysis of key issues in urban studies how city managers share power with mayors how spending policies affect economic development and how school politics impact education policy students can clearly see how scholars discern patterns and formulate conclusions to offer theoretical and practical insights from which all cities can benefit pelissero brings together an impressive team of contributors to explore variation among cities through case studies and cross sectional analyses each author synthesizes the field's seminal literature while explaining how urban leaders and their constituents grapple with everything from city council politics to conflict and cooperation among minority groups authors identify both key trends and gaps in the scholarship and help set the research agenda for the years to come lively case material will hook your students while the accessible presentation of empirical evidence make this reader the comprehensive and sophisticated text you demand

includes the decisions of the supreme courts of massachusetts ohio indiana and illinois and court of appeals of new york may july 1891 mar apr 1936 appellate court of indiana dec 1926 feb 1927 mar apr 1936 courts of appeals of ohio
