this powerful history describes the daily progression of the ebola outbreak that swept across west africa and struck europe and america from december 2013 to june 2016 a case study on a massive scale it follows the narratives of numerous patients as well as the journey of physicians and scientists from discovery to action and from tracking to containment the unfolding story reveals ever shifting complexities such as the varied paths the infection took from country to country the multiple responses of community members and the occurrence of flare ups when the outbreak was seemingly over the book s finely documented present tense reporting records key facts events and observations including routes of ebola transmission incubation symptoms short and long term effects on survivors early attempts to understand and contain the virus and curb practices contributing to its spread medical governmental and public responses from local education programs to global

efforts communication and conflict between healthcare workers and communities social and economic outcomes of ebola in the affected nations ebola remains incurable although a vaccine is now available for members of the medical community public health officials medical historians scholarly professionals and interested laypeople a day by day chronicle of the 2013 2016 ebola outbreak makes starkly clear what we can learn from these events not only for future outbreaks of ebola but also for the emergence of as yet unknown diseases

detention operations are vital to u s military doctrine and crucial to the success of combat and recovery missions this book shows that the image of abuse from abu ghraib were but one small harmful element in an overwhelmingly successful detention mission in iraq it focuses on the subsequent developments and successes explaining the standard rule of law approach taken by the u s military and examining the work in iraq of such leaders as major general john d gardner and major general douglas m stone overall the text moves away from the abu ghraib scandal to illuminate a largely unknown successful development in the u s detention operations following the abu ghraib scandal of 2003 2004 the u s department of defense scrambled to recover its reputation and that of its troops as the bush administration sought to redefine torture military judge advocates consistently challenged such moves arguing in favor of the geneva conventions humanitarian practices by 2006 department of defense policy stipulated full respect for and use of the geneva conventions this development was indeed a victory for american support for rule of law in iraq as well as an affirmation of standard practices in the detention command task force 134 pressures of war however continued to present their own challenges

the practices of world politics are now scrutinised in a way that is unprecedented with even those previously or conventionally assumed to be disengaged from international affairs being drawn into world politics by social media interactive websites allow users to follow election results in real time from the other side of the world and online mapping means that the world out there is now available on your mobile phone understanding popular culture and world politics in the digital age engages these themes in contemporary world politics to better understand how digital communication through new media technologies changes our encounters with the world whether the focus is digital media social networking or user generated content these sites of political activity and the artefacts they produce have much to tell us about how we engage world politics in the contemporary age this volume represents the starting point of a dialogue about how digital technologies are beginning to impact the research and practice of scholars and practitioners in the field of international relations with the collection of cutting edge essays dealing specifically with the intertextuality of world politics and digital popular culture this book will be of use to international relations research academics and critically engaged publics interested in the core themes of global politics subjectivity militarism humanitarianism civil society organisation and governance the book also employs theories and techniques closely associated with other social science disciplines including political theory sociology cultural studies and media studies

leveling the playing field explores the technologies that trickle down to the rest of us those that were once the domain of the wealthy and powerful and which therefore tended to make them even more wealthy and powerful now though these technologies from books to computers to 3d printing and beyond have become part of a common toolkit one accessible to almost anyone or at

least to many more than had heretofore had access this is what happens with most technologies they begin in the hands of the few and they end up in the hands of the many along the way they sometimes transform the world

examines ways to operationalize the responsibility to prevent genocide crimes against humanity war crimes and ethnic cleansing develops a strategic framework to identify the appropriate scope and substance of preventive dimensions and the tools that can be used to prevent escalation such as sanctions mediation international criminal justice and military intervention

we live in a time when the largest numbers of people who were being lifted out of absolute poverty in a relatively short time in human history have relapsed into extreme poverty due to the coronavirus disease covid 19 this is happening in africa asia europe the pacific and americas as well as all other parts of the globe at this time the understanding of public policy and development are enriched at an unprecedented pace this is also the time when the once thriving economic social political and environmental transformations developing and developed countries experienced are being undermined by the global pandemic the experience for developing countries to achieve prosperity through economic growth good governance and inclusivity have gained greater attention today than ever the desired paths and innovative approaches to harnessing public policy dialogue are even more demanding thus the rightful time to explore important insights about national and global development issues regarding aid corruption and anti corruption poverty reduction social protection economic growth and overall sustainable development require sober reflections such reflections and insights must be evidence based to these this book contributes it s therefore a compelling consensus to grab and read a copy don t miss it

this book examines the nature and consequences of strategic competition between the us and china which affects the global security landscape and the emerging security architecture across the broader asia pacific region the author illustrates the evolution of sino us security interactions from the anti soviet alliance to temporary marginalization to eventual strategic competition and examines cases that could potentially escalate into greater conflicts the analysis offers tantalizing glimpses into both the dangers and promising opportunities presented by this strategic fork in the road making it of great interest to researchers and scholars in the fields of international relations and security studies

this book discusses how the ideas expectations and mind sets that formed within different us foreign policy making institutions during the cold war have continued to influence us foreign policy making vis à vis russia in the post cold war era with detrimental consequences for us russia relations it analyses what these ideas expectations and mind sets are explores how they have influenced us foreign policy towards russia as ideational legacies including the ideas that russia is untrustworthy has to be contained and that in some aspects the relationship is necessarily adversarial and outlines the consequences for us russian relations it considers these ideational legacies in depth in relation to nato enlargement democracy promotion and arms control and sets the subject in its wider context where other factors such as increasingly assertive russian foreign policy impact on the relationship it concludes by demonstrating how tension and mistrust have continued to grow during the trump administration and considers the future for us russian relations

what are the voting behaviors of the various minority groups in the united states and how will they shape the elections of tomorrow this book explores the history of minority voting blocs and their influence on future american elections according to current scholarship the caucasian population of the united states is expected to be a minority by 2042 as the white majority disappears and politics shift with the changing tide it is important to understand the voting behaviors of the significant minority voting blocs in the united states in this book a variety of voting blocs are examined african americans women native americans latinos mexicans cubans puerto ricans south asians indians pakistanis bangladeshis east asians chinese japanese koreans filipinos pacific islanders arab americans muslim americans jewish americans and the lgbt community in addition to factual and historical information about the minority voting blocs chapters also explore how section 5 of the voting rights act of 1965 felon disenfranchisement laws and voter id laws impact a minority group s voting rights finally the authors and contributors anticipate which issues are likely to influence each group s voters and affect future elections

when faced with those who act with impunity we seek the protection of law we rely upon the legal system for justice from international human rights law that establishes common standards of protection to international criminal law that spearheads efforts to end impunity for the most heinous atrocities while legal processes are perceived to combat impunity and despite the ready availability of the law accountability often remains elusive what if the law itself enables impunity law s impunity asks this question in the context of the modern private military company pmc examining the relationship between law and the concepts of responsibility and impunity this book proposes that ordinary legal processes do not neutralise but rather legalise impunity this radical idea is applied to the abysmal record of human rights violations perpetrated by the modern pmc and the shocking absence of accountability this book demonstrates how the law organises rather than overcomes impunity by detailing how the modern pmc exploits ordinary legal processes to systematically exclude itself from legal responsibility thus law s impunity offers an alternative to conventional thinking about the law providing an innovative approach to assess and refine the rigour of legal processes in the ongoing quest to end impunity

concerns about energy resources and the environmental impact of energy use will continue to be important globally world scientific s unique series of books on current energy issues is intended in part as an expansion and update of the material contained in the world scientific handbook of energy each volume will focus on related energy resources or issues and will contain a broader range of topics with more explanatory text this solar energy volume covers a variety of approaches to the use of solar energy these include large scale photovoltaic production of electricity as well as more local applications in the home and businesses similarly there is an extensive discussion of large scale solar thermal electricity production and smaller scale uses such as solar water heating home heating and cooling plus crop drying there is also discussion of more forward looking technologies including the production of fuels using artificial photosynthesis and the production of biomass

these are turbulent times for american foreign policy nowhere are the challenges facing the united states more evident than in u s policy toward russia drawing on scholars across several disciplines and perspectives csis conducted a year long study that sought to achieve two goals first to provide policymakers with a clearer understanding of russia s strategic motivations and objectives along with the tools it uses to advance its goals second to lay out a comprehensive strategy to secure u s and

transatlantic interests in the face of the complex russia challenge set

this book is based on papers presented at the conference however it is not a typical publication of academic conference proceedings because the topics are not completely congruent with those of the conference some lectures that could not be held due to travel restrictions related to the coronavirus pandemic were submitted as book contributions in addition i also wrote a short contribution on the jewish history of the region which has been often neglected in previous presentations of the region the various authors for this volume have been intensively involved with the region in recent years however the authors do not only focus on the situation on the ground but also on the international context of the autonomous administration the conflict in syria is no longer just a civil war but a transnational conflict with important roles played not only by actors such as russia or the usa but also turkey or iran given the transnationality of the conflict and the role of the hegemonic powers these authors share thoughtful analyses from very different perspectives it is important to share these diverse views with the world so that the tragic conflict might become more comprehensible this does not mean however that i necessarily advocate each particular position taken by the varied contributors to this book the intent is to offer you multiple perspectives and certainly not a common narrative

the success of the entire food supply chain depends on the prosperity of farms and local communities the direct climate change risks faced by the agricultural sector are therefore also risks to businesses and food supply chains hence the importance of resilience at farm level community level and business level when looking at food supply chain policy and management climate change adaptation and food supply chain management highlights the issue of adaptation to climate change in food supply chains the management and policy implications and the importance of supply chain resilience attention is given to each phase of the supply chain input production agriculture food processing retailing consumption and post consumption european case studies demonstrate the vulnerabilities of contemporary food supply chains the opportunities and competitive advantages related to climate change and the trans disciplinary challenges related to successful climate adaptation the authors argue for a redefinition of the way food supply chains are operated located and coordinated and propose a novel approach enhancing climate resilient food supply chain policy and management this book will be of interest to students researchers practitioners and policymakers in the field of climate adaptation and food supply chain management and policy
