selected peer reviewed papers from the ami light metals 2014 conference october 15 17 2014 pilanesberg national park south africa

from the food we eat the water we drink to the air we breathe everything these days seems capable of killing us recently we have seen an unprecedented number of deaths due to medications for diseases that may not even exist obscure cancers caused by our modern devices and brutal police tactics all a coincidence think again in population control acclaimed journalist jim marris lays out a stunning case for his most audacious conspiracy yet the scheme concocted by a handful of global elites to reduce the world s population to 500 million by whatever means necessary

and make a profit from it marris the bestselling author of rule by secrecy and the trillion dollar conspiracy pulls no punches in exposing this evil and chillingly effective plan he explains how a small group of tremendously wealthy and powerful people control virtually every important industry guns oil pharmaceuticals food and of course the media and how it uses this vast network of conglomerates to take actions that lead to the deaths of men and women all over the world in the explosive population control marris lays bare the damning truths corporate owners don t want you to discover how they ve spied on private citizens intentionally spread disease and destroyed the planet chasing profits all to improve the lives of a privileged few while eliminating everyone else finally he offers a citizen s blueprint for fighting back

although there have been numerous studies of the causes and consequences of the great financial crisis of 2007 2010 in the us and abroad many of these were undertaken only for a small number of countries and before the financial and economic effects were fully realized and before various governmental policy responses were decided upon and actually implemented this book aims to fill these voids by providing a more thorough assessment now that the worst events and the regulatory reforms are sufficiently behind us and much more information about these developments is available it reviews and analyzes the causes and consequences of and the regulatory responses to the great financial crisis particularly from a public policy viewpoint in the process it explores such intriguing questions as what caused the crisis how did the crisis differ across countries what is the outlook for another crisis and when this is a must read for those who are trying to find answers to these questions
