the author of the god delusion addresses key scientific questions previously explained by rich mythologies from the evolution of the first humans and the life cycle of stars to the principles of a rainbow and the origins of the universe

magic takes many forms supernatural magic is what our ancestors invoked in order to explain the world before they developed the scientific method the ancient egyptians explained the night by suggesting that a goddess swallowed the sun the vikings believed a rainbow was the gods bridge to earth aside from these extraordinary tales there is another kind of magic that lies in the exhilaration of discovering the real answers to these questions it is the magic of reality science packed with dazzling illustrations and jaw dropping facts the magic of reality explains a wide range of natural phenomena

this book examines the post 9 11 god debate in the west through a close study of prominent english god debaters richard dawkins karen armstrong christopher hitchens and terry eagleton adrian rosenfeldt demonstrates that new atheist and religious apologist ideas and arguments about god science and identity are driven by mythic autobiographical narratives and protestant or catholic cultural heritage this study is informed by criticism of the new atheist polemic as being positivistic and the religious apologists as propagating sophisticated theology in both cases the god debaters are perceived as disassociating themselves from human lived experience it is through reconnecting the god debaters intellectual ideas to their cultural and social background that the god debate can be grounded in a recognisable human reality that eludes reductive distinctions and disembodied abstractions

an exploration of the implications of the meeting of quantum physics and buddhist metaphysics for our understanding of paranormal phenomenon the quantum nature of telepathy the quantum truth of rebirth the holographic principle and enlightenment advanced states of consciousness in buddhist jhana meditation and the psychology of abraham maslow the misleading ideas of brian cox and jim al khalali michael mensky s quantum concept of consciousness and much more

dark horse books proudly presents this two volume hardcover artbook collection showcasing the work of the legendary artist dave mckean who has created some of the most iconic images in modern comics literature film and music featuring his visually stunning work from neil gaiman s the sandman mirrormask arkham asylum cages black dog raptor and so much more as well as artwork featured in prose publications film music and never before seen bonus material with commentary by dave mckean this deluxe two volume set is collected into a gorgeous slipcase featuring original artwork by mckean also including a satin ribbon marker in each volume and a foreword by david boyd haycock

an investigation into the materialist madness of darwinian views of evolution further investigation of modern quantum and evolutionary developmental discoveries shows the darwinian evolutionary worldview is incorrect and a non theistic intelligent design operating from the quantum level is correct this leads to the exploration of the view that the universe is a self perceiving organism employing sentient beings as its perceiving agents

this publication is a summary this publication is not the complete book this publication is a condensed summary of the most important concepts and ideas based on the original book workbook summary the magic of reality based on the book by richard dawkins are you ready to boost your knowledge about the magic of reality do you want to quickly and concisely learn the key lessons of this book are you ready to process the information of an entire book in just one reading of approximately 30 minutes would you like to have a deeper understanding of the original book then this book is for you content exploring the nature of reality understanding human origins investigating extraterrestrial life biodiversity explained composition of matter earth's cycles explained understanding our stars science behind rainbows origins of the universe genetic connections among species causes of earthquakes understanding natural disasters

get the summary of richard dawkins's the magic of reality in 20 minutes please note this is a summary not the original book the magic of reality explores the concept of reality emphasizing that while not everything real is directly perceivable scientific tools allow us to confirm the existence of phenomena beyond our senses the book discusses how evidence of dinosaurs exists through fossils and how telescopes reveal distant celestial bodies acting as time machines it considers the possibility of extraterrestrial life and the role of scientific discovery in confirming the existence of atoms

to comprehensively address the complexities of current socio ecological problems involved in global environmental change it is indispensable to achieve an integration of ecological understanding and ethical values contemporary science proposes an inclusive ecosystem concept that recognizes humans as components contemporary environmental ethics includes eco social justice and the realization that as important as biodiversity is cultural diversity inter cultural inter institutional and international collaboration requiring a novel approach known as biocultural conservation right action in confronting the challenges of the 21st century requires science and ethics to be seamlessly integrated this book

resulted from the 14th cary conference that brought together leading scholars and practitioners in ecology and environmental philosophy to discuss core terminologies methods questions and practical frameworks for long term socio ecological research education and decision making

ecological crisis is being widely discussed in society today and therefore the subject of religious naturalism has emerged as a major topic in religion the routledge handbook of religious naturalism is an outstanding reference source to the key topics problems and debates in this exciting subject and is the first collection of its kind comprising thirty four chapters by a team of international contributors the handbook is divided into seven parts varieties of religious naturalism and its relations to other outlooks some earlier religious naturalists pantheism materialism and the value ladenness of nature ecology humans and politics in naturalistic perspective religious naturalism and traditional religions putting religious naturalism into practice critical discussions of religious naturalism within these sections central issues debates and problems are examined including defining religious naturalism religious underpinnings of ecology natural piety the religious aesthetic ecstatic naturalism as deep pantheism spiritual ecology african american religious naturalism christian religious naturalism dao and water confucianism environmental action and practices in religious naturalism the routledge handbook of religious naturalism is essential reading for students and researchers in religious studies theology and philosophy the handbook will also be useful for those in related fields such as environmental ethics and ecology

science unbound in this book the author explores comprehensive scientism by juxtaposing the philosophies of one challenging figure of the european enlightenment with those of a legendary evolutionary biologist paul henri thiry d

holbach lived from 1723 1789 and wrote one monumental work known as the bible of atheists richard dawkins a modern day scientist and self declared atheist is currently galvanizing the secularist movement gerold reisinger s treatise aims to uncover the motives of d holbach and dawkins for claiming that science is the only source of knowledge to defend atheism various aspects of their forms of scientism are outlined and elucidated in relation to the comprehensive form that combines epistemological ontological moral and existential scientism basic research by stenmark and peels frames this philosophical work s analysis and comparison of the two iconic philosophers and their writings the book shows that scientism is what unites their positions and proves to be as powerful a motive today as it was in the 18th century to render science the know all and be all of truth and reality and thereby attempt to obviate religion for humankind

new york times bestseller the legendary biologist and bestselling author mounts a timely and passionate defense of science and clear thinking with this career spanning collection of essays including twenty pieces published in the united states for the first time for decades richard dawkins has been a brilliant scientific communicator consistently illuminating the wonders of nature and attacking faulty logic science in the soul brings together forty two essays polemics and paeans all written with dawkins s characteristic erudition remorseless wit and unjaded awe of the natural world though it spans three decades this book couldn t be more timely or more urgent elected officials have opened the floodgates to prejudices that have for half a century been unacceptable or at least undercover in a passionate introduction dawkins calls on us to insist that reason take center stage and that gut feelings even when they don t represent the stirred dark waters of xenophobia misogyny or other blind prejudice should stay out of the voting booth and in the essays themselves newly annotated by the author he investigates a number of issues including the importance of empirical evidence and decries bad science religion in the schools and climate change deniers dawkins has equal ardor for the sacred truth of nature and renders here with typical virtuosity the glories and complexities of the natural world woven into an exploration of the vastness of geological time for instance is the peculiar history of the giant tortoises and the sea turtles whose journeys between water and land tell us a deeper story about evolution at this moment when so many highly placed people still question the fact of evolution dawkins asks what darwin would make of his own legacy a mixture of exhilaration and exasperation and celebrates science as possessing many of religion s virtues explanation consolation and uplift without its detriments of superstition and prejudice in a world grown irrational and hostile to facts science in the soul is an essential collection by an indispensable author praise for science

in the soul compelling rendered in gloriously spiky and opinionated prose dawkins is one of the great science popularizers of the last half century the christian science monitor dawkins is a ferocious polemicist a defender of reason and enemy of superstition john horgan scientific american

in recent decades the christian consensus that laid the foundations for the freedoms stability and prosperity enjoyed by western countries has been challenged by an increasingly militant atheistic humanism as a consequence christianity has become scorned and held up as a thing to be ridiculed the god delusion by richard dawkins represents perhaps the most brazen attack on christianity yet in it professor dawkins portrays christianity as unscientific irrational and even downright evil the god reality takes his main arguments and shows the many flaws and falsehoods they contain it aims to embolden christians to stand up for their beliefs in the face of an increasingly sceptical and hostile world and to cause atheists to question whether the assumptions that underpin their faith are really as logical and as sound as they think they are book jacket

the four million copy international bestseller the brilliantly argued and impassioned classic polemic from the world s best known atheist sensationally incisive and perennially timely this is required reading for everyone a resounding trumpet blast for truth matt ridley the god delusion deserves multiple readings not just as an important work of science but as a great work of literature steven weinberg nobel laureate times literary supplement if its merciless rationalism doesn t enrage you at some point you probably aren t alive julian barnes entertaining wildly informative splendidly written rod liddle sunday times there is not a dull page a book that makes me want to cheer its clarity intelligence and truth telling claire tomlin my favourite book of all time a heroic and life changing work derren brown spirited and exhilarating dawkins comes roaring forth in the full vigour of his powerful arguments joan bakewell guardian at last richard dawkins one of the best non fiction writers alive today has assembled his thoughts on religion into a characteristically elegant book steven pinker the world needs passionate rationalists unafraid to challenge long accepted beliefs richard dawkins so stands out through the cutting intelligence of e god delusion james d watson nobel laureate and co discoverer of dna the god delusion caused a sensation when it was published in 2006 within weeks it became the most hotly debated topic with dawkins himself branded as either saint or sinner for presenting his hard hitting impassioned rebuttal of religion of all types his argument could hardly be more topical while europe is becoming increasingly secularized the rise of religious fundamentalism whether in the middle east or middle america is

dramatically and dangerously dividing opinion around the world in america and elsewhere a vigorous dispute between intelligent design and darwinism is seriously undermining and restricting the teaching of science in many countries religious dogma from medieval times still serves to abuse basic human rights such as women s and gay rights and all from a belief in a god whose existence lacks evidence of any kind dawkins attacks god in all his forms he eviscerates the major arguments for religion and demonstrates the supreme improbability of a supreme being he shows how religion fuels war foments bigotry and abuses children the god delusion is a brilliantly argued fascinating polemic required reading for anyone interested in this most emotional and important subject

in this hugely entertaining sequel to the new york times bestselling memoir an appetite for wonder richard dawkins delves deeply into his intellectual life spent kick starting new conversations about science culture and religion and writing yet another of the most audacious and widely read books of the twentieth century the god delusion called one of the best nonfiction writers alive today stephen pinker and a prize fighter nature richard dawkins cheerfully mischievously looks back on a lifetime of tireless intellectual adventure and engagement exploring the halls of intellectual inquiry and stardom he encountered after the publication of his seminal work the selfish gene affectionately lampooning the world of academia publishing and television and studding the pages with funny stories about the great men and women he s known dawkins offers a candid look at the events and ideas that encouraged him to shift his attention to the intersection of culture religion and science he also invites the reader to look more closely at the brilliant succession of ten influential books that grew naturally out of his busy life highlighting the ideas that connect them and excavating their origins on the publication of his tenth book the smash hit the god delusion a resounding trumpet blast for truth matt ridley richard dawkins was catapulted from mere intellectual stardom into a circle of celebrity thinkers dubbed the new atheists including christopher hitchens sam harris and daniel dennett throughout a brief candle in the dark dawkins shares with us his infectious sense of wonder at the natural world his enjoyment of the absurdities of human interaction and his bracing awareness of life s brevity all of which have made a deep imprint on our culture

arguing about religion is an ideal collection for students interested in contemporary philosophy of religion and related disciplines this volume brings together primary readings from over 40 of the world s leading philosophers of religion covering a broad range of issues set alongside these works of academic philosophy are excerpts from controversial

popular works by daniel dennett and richard dawkins in order to introduce the philosophical issues in a way that demonstrates their relevance to everyday life and sets them in the context of contemporary cultural discourse the volume is divided into 6 parts helping the student get to grips with classic and core arguments topics covered include methodological issues in philosophy of religion god s nature and existence evil and divine hiddenness providence and interaction the afterlife religion and contemporary life featuring lucid general and section introductions and a glossary by volume editor kevin timpe arguing about religion is an ideal starting point for students coming to philosophy of religion for the first time
