amy greenberg examines the social cultural and political context that gave rise to manifest destiny one of the most influential ideologies in american history drawing on primary documents she explores how it evolved from colonial roots to become a fully articulated rationale in the 1840s for expanding the nation's borders

practically speaking nineteenth century american literary history really refers to writings from the east seaboard of the united states in fact no author from the west prior to mark twain has been admitted into the canon of american literature a longstanding bias that continues to define the narrative arc of u.s. literary nationalism western authors are absent from the canon and classroom largely because their regional writings are assumed to be second rate in comparison with the ostensibly more complex literary cultures of the eastern states andy doolen's monograph reorients literary history turning to the neglected western writings that shaped the distinctive process of u.s. expansionism in the years following the louisiana purchase as doolen shows these cartographic texts legitimated u.s. occupancy of contested border zones and justified the nation's move westward in five chapters territories of empire surveys an under studied archive of these texts ranging from exploration narratives novels oratory and natural histories to autobiographies travel narratives poetry and periodical literature in writings as dissimilar as protest petitions from white

louisianans kentucky newspaper accounts of the burr conspiracy the explorer zebulon pike s 1810 account of the upper rio grande and timothy flint s 1826 novel about a young new englander who fights in the mexican independence struggle americans were expanding the national imagination into new continental dimensions ultimately these texts show how literature reflected and fed the expansionist ideology of the u s by linking national greatness to the urgent necessity of territorial and commercial growth

the second edition of the routledge companion to race and ethnicity offers readers a broad overview of scholarly exploration of the ways that humans have organized themselves and have been organized according to racial and ethnic divisions more than 80 scholars from around the world and representing multiple academic traditions contribute entries to this accessible yet sophisticated volume that addresses contemporary issues in historical context the first half of the book challenges readers to grapple with some of the most controversial aspects of categorization prejudice and discrimination through focused chapters ranging from the notion of whiteness to the supposed biological rationale for racial categorization the second half is comprised of 70 shorter entries on specialized concepts persons and groups that are crucial to understanding these issues taken as a whole this volume provides a broad multi disciplinary and global overview of issues that continue to provide challenges to notions of equality and justice

this book documents the potency of manifest destiny in the antebellum era

this book gathers selected high quality research papers presented at the ninth international congress on information and communication technology held in london on february 19 22 2024 it discusses emerging topics pertaining to information and communication technology ict for managerial applications e governance e agriculture e education and computing technologies the internet of things iot and e mining written by respected experts and researchers working on ict the book offers an asset for young researchers involved in advanced studies the work is presented in ten volumes

now thoroughly updated this respected text provides a clear concise and affordable narrative and analytical history of american foreign policy from the revolutionary period to the present this edition includes an all new chapter on the george w bush presidency 9 11 and the war in iraq the historiographical essays at the end of each chapter have been revised to reflect the most recent scholarship the history of american foreign policy chronicles events and policies with emphasis on the international setting and constraints within which american policy makers had to operate the domestic pressures on those policy makers and the ideologies preferences and personal idiosyncrasies of the leaders themselves the new edition also provides expanded coverage of the role of cultural and intellectual factors in setting up the problems faced by u s policy makers as well as new materials on globalization and the war on terror

explains the events surrounding the concept of manifest destiny discussing the deals and wars that brought new territories under american control and allowed the country to expand westward to the pacific ocean

vols 227 230 no 2 include stuff and nonsense v 5 6 no 8 jan 1929 aug 1930

evangelical violence examines the long history of western states and actors attempting to export and impose christianity on non western peoples and the use of state administered violence to achieve these evangelical goals this book explores the theological underpinnings of western attempts to spread christianity and examines how variations in the interpretation of this theological imperative have impacted beliefs and practices of western states the book argues that throughout the past millennium the foreign policy of western states has been heavily influenced by the christian concept of evangelism based on the scriptural great commission the command to go and make disciples of all nations when evangelism has been conceived in collective rather than individualistic terms an extension of the concept of christian nationalism to international relations violence has been readily and more intensely used against non christian societies to achieve both conversion and secular goals whereas a more individualistic understanding of conversion has

constrained violence and promoted persuasive and humanitarian focused outreach the book analyzes the relationship between prevailing western concepts of evangelism and the use of force against non western societies through a series of case studies that include the crusades the first and second waves of western colonization of the americas africa and asia westward expansion of the united states and modern examples of international interventionism this book will appeal to students and scholars interested in christian nationalism colonialism the history of international relations and the intersection of religion and politics

less than 100 years after its creation as a fragile republic the united states more than quadrupled its size making it the world s third largest nation no other country or sovereign power had ever grown so big so fast or become so rich and so powerful pulitzer prize winning historian richard kluger chronicles this epic achievement in a compelling narrative celebrating the energy daring and statecraft behind america s insatiable land hunger while exploring the moral lapses that accompanied it comprehensive and balanced seizing destiny is a revelatory often surprising reexamination of the nation s breathless expansion dwelling on both great accomplishments and the american people s tendency to confuse opportunistic success with heaven sent entitlement that came to be called manifest destiny

the hero s journey is a process of re discovery of the principles that make up the national identity of a country these principles must then be applied in the formulation and implementation of foreign policy for the seventh time in its history america has discovered a grand synthesis of power and morality in projecting its resources and principles into the global arena this makes possible a more assertive moral foreign policy course in responding to a range of foreign policy challenges of these challenges salla asserts the most profound in terms of the scale of human suffering around the planet is that concerning violations of the rights of ethnic minorities ethnic conflicts and the humanitarian crises and massive human rights violations they generate form a foreign policy challenge that will preoccupy the minds of policy makers for much of the 21st century nato s intervention in the kosovo crisis is the high water mark for america s seventh hero s journey the intervention sends a decisive signal to all governments that the u s and its allies will no longer remain inactive in the face of states attempting to militarily repress the aspirations of their ethnic minorities this moral interventionism can safely be extended well into the 21st century if policy makers wisely combine the moral principles and foreign policy challenges that make up both the second american century and america s seventh hero s journey this provocative analysis will be of interest to all scholars students and researchers involved with the development of american foreign policy

Recognizing the mannerism ways to get this ebook **Manifest Destiny American Territorial Expansion** is additionally useful. You have remained in right site to start getting this info. get the Manifest Destiny American Territorial Expansion join that we present here and check out the link.
