in doing so it brings together two areas of thought and action that have hitherto been separate progressive economics concerned with promoting economic justice and human development and human rights analysis and advocacy focussing on in depth comparative case studies of the usa and mexico and looking at issues such as public expenditure taxation and international trade the book shows that heterodox economic analysis benefits greatly from a deeper understanding of a human rights framework this is something progressive economists have often been skeptical of regarding it as too deeply entrenched in western norms discourses and agendas such a categorical rejection is unwarranted instead human rights norms can provide an invaluable ethical and accountability framework challenging a narrow focus on efficiency and growth a vital book for anyone interested in human rights and harnessing economics to create a better world

indigenous students learn and retain more when teachers value the language and culture of the students community and incorporate them into the curriculum this is a principle enshrined in the un declaration on the rights of indigenous peoples 2007 and borne out both by the successes of indigenous language immersion schools and by the failures of past assimilationist practices and the recent english only policies of the no child left behind act in the united states teaching indigenous students puts culturally based education squarely into practice the volume edited and with an introduction by leading american indian education scholar jon reyhner brings together new and dynamic research from established and emerging voices in the field of american indian and indigenous education all of the contributions show how the quality of education for indigenous students can be improved through the promotion of culturally and linguistically appropriate schooling grounded in place community and culture the approaches set out in this volume reflect the firsthand experiences of teachers and students in interacting not just with texts and one another but also with the local community and environment the authors address the specifics of teaching the full range of subjects from learning literacy using culturally meaningful texts to inquiry based science curricula and from math instruction that incorporates real world experience to social studies that blend oral history and local culture with national and world history teaching indigenous students also emphasizes the importance of art music and physical education both traditional and modern in producing well rounded human beings and helping students establish their identity as twenty first century indigenous peoples surveying the work of indigenous language immersion schools around the world this volume also holds out hope for the revitalization of indigenous languages and traditional cultural values
