this book chronicles the divergent growth trends in car production in belgium and spain it delves
into how european integration high wages and the demise of gm and ford led to plant closings in
belgium next it investigates how lower wages and the expansion strategies of western
european automakers stimulated expansion in the spanish auto industry finally it offers three
alternate scenarios regarding how further eu expansion and brexit may potentially reshape the
geographic footprint of european car production over the next ten years in sum this book
utilizes history to help expand the knowledge of scholars and policymakers regarding how
european integration and brexit may impact future auto industry investment for all eu nations

volume one traces the history of opel and vauxhall separately from inception through to the
1970s and thereafter collectively to 2015 special attention is devoted to examining innovative
