this book explores the visual narratives of a group of decorated tombs from ptolemaic and roman egypt c 300 bce 250 ce the author contextualizes the tombs within their social political and religious context and considers how the multicultural population of graeco roman egypt chose to negotiate death and the afterlife

a penetrating assessment of augustus as ancient rome s military commander in chief the words pax augusta or pax romana evoke a period of uninterrupted peace across the vast roman

empire lindsay powell exposes this as a fallacy almost every year between 31 bc and ad 14 the roman army was in action somewhere either fighting enemies beyond the frontier in punitive raids or for outright conquest or suppressing banditry or rebellions within the borders remarkably over the same period augustus succeeded in nearly doubling the size of the empire how did this second rate field commander known to become physically ill before and during battle achieve such extraordinary success did he in fact have a grand strategy powell reveals augustus as a brilliant strategist and manager of war as commander in chief imperator he made changes to the political and military institutions to keep the empire together and to hold on to power himself his genius was to build a team of loyal but semi autonomous deputies legati to ensure internal security and to fight his wars for him while claiming their achievements as his own the book profiles more than 90 of these men as well as the military units under their command and the campaigns they fought the book is lavishly illustrated with 23 maps 42 color plates 13 black and white figures and five order of battle schematics with a foreword by karl galinsky this book breaks new ground in explaining the extraordinary achievement of caesar augustus

this collection of essays is offered in admiration of and in gratitude for the work of ernest charles lucas the title of the volume acknowledges ernest s particular areas of interest and expertise the word wisdom comes first for two reasons firstly because the bible s wisdom literature is a particular love about which ernest has published a number of books and secondly because wisdom is a characteristic of the man several of the contributions to this volume pick up the theme of biblical wisdom while others touch on the practical application of a wisdom shaped by the scriptures to vital contemporary issues the second word of the title science reflects both ernest s first career as a research bio chemist and his interest as a theologian in exploring the relationship between science and faith this area of interest is reflected in a number of the contributions to this collection including ernest s passionate interest in and concern about climate change the final words of the title are and the scriptures ernest has at one time or another taught every part of the bible and retained a keen interest in the discipline of biblical studies once again this is reflected in some of the contributions there are other aspects to ernest lucas and among them is a love of sport especially cricket and so the collection ends with a reflection on this wonderful pastime

an international team of experts in ancient philosophy explore the connections analogies and differences occurring between greek and indian buddhist traditions

this book examines education as a means to explore knowledge and literacy in the old babylonian period it further employs a new method to research these topics contrary to numerous existing studies on the subject the author examines elementary education globally that is in pursuit of old babylonian education in its entirety typically education is examined in a piecemeal fashion it s as if education centered on lexicography alone or mathematics alone this work encompasses a view about educational content and knowledge systems as opposed to only specific aspects or branches of them in doing so a characterization of institution and

society is made possible allowing the work to open new general perspectives on mesopotamian knowledge literacy and education

an exploration of what historians do and can do beyond the classroom and a guide through the complete range of skills needed to work within and even outside public history

the present boom in popular history is not unprecedented the contributions to this volume investigate peaks of historical interest which favour popular approaches from around 1800 to the present they analyse the media genres and institutions through which historical knowledge has been disseminated from artefacts to the archive from poetry to photography from music to murals and from periodicals to popular tv series they ask how major traditions in the popular imagery of the past have evolved and changed over time cultural contexts covered in the book include western and southern europe the united states and west africa contributors come from a range of disciplines including history literary and cultural studies musicology as well as social and cultural anthropology

this book explores how sex sexuality and gender were conceptualized in the ancient near east by interpreting biblical texts alongside archaeological evidence through the lens of cognitive psychology
