Joseph Conrad is one of the most intriguing and important modernist novelists and short story writers whose writing continues to preoccupy readers. Conrad combined his unique personal background as a Polish emigre, his personal experiences and voyages as a seaman, and his literary readings with the tradition of his adopted country to produce literary works and fictions which blended with his distinctive taste gave the English novel a further originality and development. This study, which primarily concentrates on four of Conrad's major works: *Heart of Darkness*, *Lord Jim*, *The Secret Sharer*, and *The Shadow Line*, shows that Conrad conceives voyaging as a symbolic means, an insight and vision into the human psyche. It becomes a journey into the inner world of man's psychological diving into his inner world of the self in quest of truth of self-identity, self-knowledge, and self-control.
