positing a radically new understanding of the root of conflict unmet needs this analysis boldly directs students and teachers to recognize feelings as important messengers of those needs refocusing attention from feelings to the needs behind the feelings addresses the underlying problem rather than the symptom with this objective the concept of the no fault zone is introduced it is a place in the classroom free from criticism or blame where students learn trust and respect for one another develop successful conflict resolution skills and the responsibility for resolution shifts from teacher to students the complete conflict resolution curriculum is included providing step by step guidance and making this classroom kit a time saver for busy teachers

the subject of management research methodology is enthralling and complex a student or a practitioner of management research is beguiled by uncertainties in the search and identification of the research problem intrigued by the ramifications of research design and confounded by obstacles in obtaining accurate data and complexities of data analysis management research methodology integration of principles methods and techniques seeks a balanced treatment of all these aspects and blends problem solving techniques creativity aspects mathematical modelling and qualitative approaches in order to present the subject of management research methodology in a lucid and easily understandable way

this book is based on the author s 33 years of intensive fieldwork it chronicles a major movement that shaped the preservation policy in japan in the 1980s and 1990s providing thick descriptions of preservationists that are not available anywhere else in english it also provides clear answers to a series of pressing questions about preservationists are they building huggers are they selfish and myopic home owners or are they merely obstacles to urban planning and urban renewal since 1984 saburo horikawa professor of sociology at hosei university in tokyo has continuously studied the movement to preserve the otaru canal in otaru japan this book shows that the preservation movement was neither conservative nor an obstacle rather the movement sought to promote changes in which the residents place would continue to be theirs as such the word preservation does not mean the prevention of growth and development but rather its control as is shown in this study preservation allows for and can even promote change the original japanese version of this book published by the university of tokyo press has won 3 major academic awards most notably the ishikawa prize the highest award bestowed by the city planning institute of japan it is extremely unusual that a sociology book should receive such important recognition from the city planning discipline
