over 2 200 total pages warrant officer basic course wobc 1 18 information congratulations on your selection as a warrant officer of marines you are about to embark upon a truly remarkable journey as an officer of marines that journey begins with your successful completion of the warrant officer basic course wobc at the basic school tbs in quantico virginia warrant officers and title 10 warrant officer wo is an appointed rank vice a commissioned one chief warrant officers marine gunners and recruiting officers are commissioned all chief warrant officers and warrant officers must successfully complete the wobc in order to retain their appointment or commission title 10 u s c section 1165 states the secretary of the navy has the authority to terminate the regular appointment of any permanent regular wo at any time within three years after the date when the officer accepted his original permanent appointment a marine whose appointment is terminated may upon his request and at the discretion of the secretary of the navy be enlisted in a grade

not lower than that held immediately prior to appointment therefore the first three years as a WO is a probationary period and the appointment to WO will be terminated if a Marine does not complete the requirements of the WOBC. WOBC mission statement: train and educate newly appointed warrant officers in the high standards of professional knowledge, esprit de corps, and leadership required to transition from enlisted Marine to officer with particular emphasis on the duties, responsibilities, and warfighting skills required of a provisional rifle platoon commander. The Warrant Officer Basic Course (WOBC) is an eighteen-week course that focuses on the transition from enlisted Marine to Marine officer. TBSC and the WOBC focus on five horizontal themes that define expectations of all Marine officers: 1. A man/woman of exemplary character, 2. Devoted to leading Marines, 24/7, 3. Able to decide, communicate, and act in the fog of war, 4. A warfighter who embraces the Corps warrior ethos, and 5. Mentally strong and physically tough. The universal concept that Marine officers must be able to assess situations, weigh the pros and cons of various decisions, make a decision, develop a plan, communicate that plan effectively, and supervise its execution is stressed and exercised throughout the course. The course will teach the science and art required for service of Marine officers with an emphasis on decision making throughout. Provisional Infantry and Planning subjects are together used as the means or vehicle to teach and evaluate this process since all students are evaluated on leadership as Marine officers. Physical, mental, and emotional stress are incorporated throughout the course in order to evaluate the ability to lead in chaotic and stressful environments. Some individuals will be pushed close to their failing point, but the WOBC is designed to give students an opportunity to display positive leadership qualities in the face of adversity. The WOBC is not a check in the block; it is a course designed to provide students with the learning experiences necessary to effectively transition to service as a Marine officer. Students who do not successfully complete the course face a variety of administrative actions, including repetition of the course, recycle to a six-month Lieutenant Basic Officer Course, revocation of appointment, or separation from the service. The WOBC curriculum is an academically rigorous Provisional Infantry and Staff Planning-based program of instruction (POI) which consists of approximately 935 hours of formal instruction. The POI includes classroom instruction, field exercises, sand table exercises, and discussion groups. Classroom instruction is designed around the flipped classroom model.

Two soldiers from two different periods in world history live in the present. One is heroic, decent, and somewhat religious; the other is anger-filled, vicious, despotic, and evil. John Barnsmith was an African American soldier officially listed as missing in action during the Vietnam conflict. Unknown to all, John is accidentally awakened from his state of suspended animation placed there by a mysterious syndicate waking on a deserted tropical island. He is rescued and realizes it's no longer 1969. He tries to adjust to the modern world in Las Vegas, but struggles. He is soon summoned for a new mission, boldly risking everything on an adventure into the dangers of time and space. Baron Dietrich von Toor was a myth in history; his actions were so terrorizing many historians thought of him as a fantasy figure originating from the Prussian line of aristocratic officers. The Baron stormed onto the New World as a leader of mercenaries called in when the situation mandated an iron fist. After a battle against his enemies of Boston, the Baron's life, death, and unholy resurrection by a sinister cult drastically altered his path. Now he walks among everyday people in the modern world after a long and secret hibernation working with terrorists who harbor plans of devastation. The two men, both possessing the same power and martial arts skills, emerge in the present to engage in a duel over humanity's fate.

The high stakes true story of how an absent-minded inventor and a down-on-his-luck salesman joined forces to create a once-in-a-generation lifesaving product. Suspenseful storytelling helps us see and feel the struggle and frustration, the sweat and tears. Inspiring. Robert Kolker, 1. New York Times bestselling author of *Hidden Valley Road*. At the 1993 Battle of Mogadishu, dramatized by the popular film *Black Hawk Down*, the majority of soldiers who

died were killed instantly or bled to death before they could reach an operating table this tragedy reinforced the need for a revolutionary treatment that could transform trauma medicine so when frank hursey and bart gullong who had no medical or military experience discovered that a cheap crushed rock called zeolite had blood clotting properties they brought it to the military's attention the marines and the navy adopted the resulting product quikclot immediately the army however resisted it had two products of its own being developed to prevent excessive bleeds one of which had already cost tens of millions of dollars the other factor seven had a more dangerous complication its side effects could be deadly unwilling to let its efforts end in failure and led by the highly influential surgeon colonel john holcomb the army set out to smear quikclot's reputation over the course of six years hursey and gullong engaged in an epic struggle with holcomb for recognition ultimately a whistle blower inside the army challenged the army's embrace of factor seven which resulted in a massive lawsuit led by the u.s. department of justice the lawsuit focused further attention on the financial ties between the pharmaceutical company that produced factor seven and holcomb's research institute by withholding quikclot which later became the medical miracle of the iraq war and in the use of factor seven with its known life threatening risks of heart attacks and strokes the lives of countless soldiers were imperiled using deep reportage and riveting prose in the blood recounts this little known david and goliath story of corruption greed and power within the military and the devastating consequences of unchecked institutional arrogance
