application development is usually faced with several critical factors time to market ever increasing quality and cost of development time to market is critical in that any project that an individual or company may have in mind is probably already in the works elsewhere when that is the case everything comes down to being the first to deliver even if it falls short a gartner research study showed that competing products offering similar features will take the most mar ket share if released

sooner the study further added that the product released first even with fewer features typically builds market share faster the lesson of that study is that it is important to release a 1.0 version of a new product concept as quickly as possible and then follow up with feature add-ons over time product consistency and quality are also critical to the success of products making their debut applications with modules that look differently can undermine the application user's confidence in the product the lower their confidence in the application the less they use the product and come to depend upon it the same can be said at the code level the more modules that are implemented consistently the easier different developers can step in to investigate and resolve problems cost of development is often measured by productivity or how much code is created to accomplish specific application tasks

one stop shopping for all the essentials of office home student 2010 the home student version of microsoft office is ideal for anyone who needs the essential office applications and can do without tools like access and outlook the version includes word excel powerpoint and onenote each minibook offers straightforward advice helpful projects and real world examples that target the home and student audiences you'll benefit from instructions for creating a resume in word establishing a home budget in excel jazzing up a school presentation with powerpoint and taking notes in onenote targets home and school users of office 2010 who primarily need and use word excel powerpoint and onenote demonstrates common everyday projects such as creating a cover letter in word and creating reusable templates in excel walks you through spiffing up a school presentation with powerpoint offers straightforward instructions for taking notes in onenote reviews common office 2010 tools and details the basics of the office ribbon office home student 2010 all in one for dummies is your fun and friendly guide to the essentials of office 2010

what is this book about extensible markup language xml is a rapidly maturing technology with powerful real world applications particularly for the management display and organization of data together with its many related technologies it is an essential technology for anyone using markup languages on the web or internally this book teaches you all you need to know about xml what it is how it works what technologies surround it and how it can best be used in a variety of situations from simple data transfer to using xml in your web pages it builds on the strengths of the first edition and provides new material to reflect the changes in the xml landscape notably soap and services and the publication of the xml schemas recommendation by the w3c what does this book cover here are just a few of the things this book covers xml syntax and writing well formed xml using xml namespaces transforming xml into other formats with xslt xpath and xpointer for locating specific xml data xml validation using dtds and xml schemas manipulating xml documents with the dom and sax 2.0 soap and services displaying xml using css and xsl incorporating xml into traditional databases and n-tier architectures xlink and xpointer for linking xml and non xml resources who is this book for beginning xml 2nd edition is for any developer who is interested in learning to use xml in web e-commerce or data storage applications some knowledge of markup scripting and/or object oriented programming languages is advantageous but not essential as the basis of these techniques are explained as required
