education is intimately connected to many of the most important and contentious questions confronting american society from race to jobs to taxes and the competitive pressures of the global economy have only enhanced its significance elementary and secondary schooling has long been the province of state and local governments but when george w bush signed into law the no child left behind act in 2002 it signaled an unprecedented expansion of the federal role in public education this book provides the first balanced in depth analysis of how no child left behind nclb became law patrick mcguinn a political scientist with hands on experience in secondary education explains how this happened despite the country s long history of decentralized school governance and the longstanding opposition of both liberals and conservatives to an active reform oriented federal role in schools his book provides the essential political context for understanding nclb the controversies surrounding its implementation and forthcoming debates over its reauthorization how the struggle to define the federal role in school reform took center stage in debates over the appropriate role of the government in promoting opportunity and social welfare he places the evolution of the federal role in schools within the context of broader institutional ideological and political changes that have swept the nation since the 1965 elementary and secondary education act chronicles the concerns raised by the 1983 report a nation at risk and shows how education became a major campaign issue for both parties in the 1990s mcguinn argues that the emergence of swing issues such as education can facilitate major policy change even as they influence the direction of wider political debates and partisan conflict mcguinn traces the republican shift from seeking to eliminate the u s department of education to embracing federal leadership in school reform then details the negotiations over nclb the forces that shaped its final provisions and the ways in which the law constitutes a new federal education policy regime against which states have now begun to rebel and that only by understanding the unique dynamics of national education politics will reformers be able to craft a more effective national role in school reform

peace as a process

author copy japan in transformation explores the conservative inertias and progressive yearnings that characterise contemporary japan the second half of the twentieth century was a tumultuous period that transformed the way japanese view the world and act in it this ideological transformation was driven by and reinforced institutional changes economic development political ferment and the dynamic tension between prevailing norms and shifting realities while focusing on transformation this book is sensitive to the incremental and cumulative nature of change and how the past

resonates powerfully in the present old verities linger and influence the patterns pace and nature of ongoing changes as japan enters the twenty first century it is in the midst of a third great transformation on a par with the meiji restoration 1868 and the us occupation 1945 52 and it is not yet certain whether japan will yet again emerge from considerable adversity with the same degree of success it enjoyed in the past the various forces that are driving the metamorphosis of modern japan are exposing the limits of the postwar model the logic of the economic and political arrangements that have prevailed are changing with profound consequences for society there is ambivalence about the rapidity of change and the erosion of tenets many japanese feel have been important to their identity as people cohesion as a community and success as a renovating democracy taming militarism and rejoining the community of industrialized societies but seems to have done a better job in containing and coping with these problems this interpretive history focuses on the economic miracle how japan s troubled past in asia is debated among japanese and how it influences its contemporary regional relations the changing role of women the implications of japan s demographic time bomb the third transformation and the lost decade of the 1990s
