this study presents a corpus based analysis of the use of wh sentences by language learners in language textbooks and in authentic written discourse it focuses on the polysemous nature of wh words which can be used as interrogatives declaratives and to introduce subordinate clauses the analysis of wh sentences in efl textbooks showed that there are more prototypical examples at low proficiency levels when teaching the interrogative textbooks focus almost exclusively on grammatical words particularly at the beginners level the analysis of wh sentences elicited from chinese speaking learners of english and expert users of english suggested that the prototypical structure is very strong in both sets of data although native speakers tend to use more prefabricated chunks of language the analysis of wh sentences from native speakers and non native speakers written corpora suggested that subordinate clauses are strongly present in both corpora except for the word why in non native speakers data the use of different words occurring immediately after wh words in the two corpora can be explained by 1 the relatively small vocabulary size of the 12 speakers 2 non native speakers lack of awareness of restricted collocations 3 11 transfer 4 over under generalization of rules and 5 textbooks

illustrated textbook of neuroanatomy presents a comprehensive yet lucid and friendly coverage of neuroanatomy explains the concepts in a simple and easy to understand language

ideal for any student or health care professional who needs an authoritative text that is sharply focused on clinical psychiatry this book contains the most relevant clinical material from the bestselling kaplan and sadock s synopsis of psychiatry 10th edition and includes updated information on recently introduced psychiatric drugs

this book is about the creation and production of textbooks for learning and teaching mathematics it covers a period from antiquity to modern times the analysis begins by assessing principal cultures with a practice of mathematics the tension between the role of the teacher and his oral mode on the one hand and the use of a written printed text in their respective relation with the student is one of the dimensions of the comparative analysis conceived of as the textbook triangle the changes in this tension with the introduction of the printing press are discussed the book presents various national case studies france germany italy as well as analyses of the internationalisation of textbooks via transmission processes as this topic has not been sufficiently explored in the literature it will be very well received by scholars of mathematics education mathematics teacher educators and anyone with an interest in the field

the twentieth century process of secularization does not mean that institutional church and christian ideas were irrelevant for twentieth century societal projects such as the introduction of democracy the improvement of school and education the framing of national identities or in the establishment of welfare states on the contrary this publication is built on the presupposition that secularization runs parallel with the sacralization of the state it can be argued that christianity has been decisive for how the modern european society evolved in the twentieth century e g concerning how christian history and christian values were a part of the new

national and social imaginary where re enchantment and re sacralization of the state were central elements in this publication the aim is to highlight the role of christianity in the twentieth and twentyfirst century welfare state modernization process with the focus on schooling and education a central perspective is the impact of cultural protestantism during the twentieth century the publication is comparative and will investigate education in norway sweden and the netherlands via chapters on curriculums textbooks politicians and political debates

survey conducted to discover the linguistic difficulties likely to be encountered by migrant schoolchildren and to establish a basis for appropriate english language courses
