leven en werk tot 1927 van de duitse schilder 1891 1976 een van de veelzijdigste kunstenaars uit de eerste helft van de twintigste eeuw

in surrealism at play susan laxton writes a new history of surrealism in which she traces the centrality of play to the movement and its ongoing legacy for surrealist artists play took a consistent role in their aesthetic as they worked in with and against a post world war i world increasingly dominated by technology and functionalism whether through exquisite corpse drawings man ray s rayographs or joan miró s visual puns surrealists became adept at developing techniques and processes designed to guarantee aleatory outcomes in embracing chance as the means to produce unforeseeable ends they shifted emphasis from final product to process challenging the disciplinary structures of industrial modernism as laxton demonstrates play became a primary method through which surrealism refashioned artistic practice everyday experience and the nature of subjectivity

surrealism and the exotic is the story of the obsessive relationship between surrealist and non western culture describing the travels across africa oceania mexico and the caribbean made by wealthy aesthetes it combines an insight into the mentality of early twentieth century collectors with an overview of the artistic heritage at stake in these adventures featuring more than 70 photographs of artefacts exhibitions and expeditions in progress it brings to life the climate of hedonism enjoyed by breton ernst durkheim and mauss it is an unparalleled introduction to the surrealist movement and to french thought and culture in the 1920s and 1930s

this book provides a conceptual and global overview of the field of surrealist studies methodologically the companion considers

surrealism's many achievements but also its historical shortcomings to illuminate its connections to the historical and cultural moments from which it originated and to assess both the ways in which it still shapes our world in inspiring ways and the ways in which it might appear problematic as we look back at it from a twenty-first-century vantage point. Contributions from experienced scholars will enable professors to teach the subject more broadly by opening their eyes to aspects of the field that are on the margins of their expertise and it will enable scholars to identify new areas of study in their own work by indicating lines of research at a tangent to their own. The companion will reflect the interdisciplinarity of surrealism by incorporating discussions pertaining to the visual arts as well as literature, film, and political and intellectual history.

This collection of essays is the first major account of surrealism in Latin America that covers both literary and visual production. It explores the role the movement played in the construction and recuperation of cultural identities and the ways artists and writers contested, embraced, and adapted surrealist ideas and practices. Surrealism in Latin America provides new Latin American-centric scholarship not only about surrealism's impact on the region but also about the region's impact on surrealism. It reconsiders the relation between art and anthropology, casts new light on the aesthetics of primitivism, and makes a strong case for Latin American artists and writers as the inheritors of a movement that effectively went underground after World War II. In so doing, it expands our understanding of important, fascinating figures who are less well known than their counterparts active in Europe and New York. Deriving from a conference held at the Getty Research Institute, the book is rich in new materials drawn from the Getty's diverse Mexican and South American surrealist collections, which include the archives of Vicente Huidobro, Enrique Gómez Correa, César Moro, Enrique Lihn, and Emilio Westphalen.

Vivienne Brough Evans proposes a compelling new way of reevaluating aspects of international surrealism by means of the category of *divin fou* and consequently deploys theories of sacred ecstasy as developed by the *collège de sociologie* (1937–39) as a critical tool. In shedding new light on the literary oeuvre of non-French writers who worked both within and against a surrealist framework, the minor surrealist genre of prose literature is considered herein rather than surrealism's mainstay poetry.

with the intention of fracturing preconceptions regarding the medium of surrealist expression the aim is to explore whether international surrealism can begin to be more fully explained by an occluded strain of dissident surrealist thought that searches outside the self through the affects of ekstasis bretonian surrealism is widely discussed in the field of surrealist studies and there is a need to consider what is left out of surrealist practice when analysed through this bretonian lens the collège de sociologie and georges bataille s theories provide a model of such elements of dissident surrealism which is used to analyse surrealist or surrealist influenced prose by alejo carpentier leonora carrington and gellu naum respectively representing postcolonial feminist and balkan locutions the collège and bataille s dissident surrealism diverges significantly from the concerns and approach towards the subject explored by surrealism using the concept of ekstasis to organise bataille s theoretical ideas of excess and inner experience and the collège s thoughts on the sacred it is possible to propose a new way of reading types of international surrealist literature many of which do not come to the forefront of the surrealist literary oeuvre

the first monograph to analyze the surrealist gesture of photographic appropriation this study examines found photographs in three french surrealist reviews published in the 1920s and 1930s la r lution surr iste edited by andr reton documents edited by georges bataille and minotaure edited by breton and others the book asks general questions about the production and deployment of meaning through photographs but addresses more specifically the construction of a surrealist practice of photography through the gesture of borrowing and re contextualization and reveals something crucial both about surrealist strategies and about the way photographs operate the book is structured around four case studies including scientific photographs of an hysteric in charcot s clinic at the salp i hospital positioned as poetry rather than pathology and one of the first crime scene photographs depicting jack the ripper s last victim radically transformed into a work of art linda steer traces the trajectory of the found photographs from their first location to their location in a surrealist periodical her study shows that the act of removal and re framing highlights the instability and mutability of photographic meaning an instability and mutability that has consequences for our understanding both of photography and of surrealism in the 1920s and 1930s

two insightful essays provide fresh perspectives on the subject timothy baum a leading authority on surrealism chronicles the history of surrealist printmaking and robert rainwater assistant director of art prints and photographs at the new york public library examines the relationship between surrealist artists and poets of the era since many outstanding surrealist prints were created as book illustrations

an exhibition catalogue elucidating the anti aesthetic formation of surrealism as an artistic movement and philosophy by choosing to focus on the drawings the curators have attempted to reproduce the spontaneous exuberance of artists such as salvador dali max ernst andre masson pablo picasso paul klee and joan miro the accompanying text to the black and white reproductions review the concepts and practices of the surrealists images themes of self myth metamorphosis and of course the exquisite corpse color plates are also included lacks an index and bibliography distributed by the u of pennsylvania press annotation copyright by book news inc portland or

a stimulating introduction to this 20th century art movement

american born artist lee miller 1907 1977 has been increasingly championed by scholars and curators for her surrealism inspired photographs her captivating images of paris in the late 1920s and early 1930s her dreamlike portraits of desert landscapes and sexually suggestive architecture taken in egypt in the mid 1930s and her witty yet often disturbing photographs of the second world war and its aftermath have been widely discussed however while popular interest in miller s colourful life and photographic work has been rapidly growing during the past forty years her true worth as a prominent surrealist artist has been somewhat overlooked this new collection of essays addresses this issue revalidating lee miller s surrealist position not simply as a muse friend and collaborator with the surrealists but as one of the twentieth century s most important and influential female surrealist artists

surrealism is among the most influential and talked about ideas of the 20th century while its contribution to the art and literature of the centry is well known its relation to the development of intellectual ideas has only recently become a matter of investigation this book details the surrealist engagement with specific issues in the intellectual history of the 20th century drawing together essays from the whole history of surrealism to illustrate the tenacity and consistency with which the surrealists have treated themes of psychological reality and the construction of identity cultural communication freedom and poetry
