affirmations to combat it

emerging technologies are having a profound impact upon business as individuals and organisations increasingly embrace the benefits of the always on attitude that digital technologies produce the use of the web apps cloud storage gps and internet connected devices has transformed the way we live learn play and interact yet how a business can fully benefit from this transformation is not always clear in response this book enables students and business leaders to take a strategic and sustainable approach to realising the value of digital technologies it offers results driven solutions that successfully transform organisations into data driven people focused businesses capable of sustainably competing at a global level split across four key parts the material moves through understanding digital business to planning implementing and assessing digital transformation the current challenges facing all small organisations including limited resources financial pressures and the lack of dedicated it departments are explored the authors consider the ways in which innovation can increase competitive advantage how innovative business models can create new opportunities and how a data driven perspective can release embedded value within the organisation contemporary international case studies and examples throughout each chapter bridge theory with practical application and systematically document the patterns of activities that enable success this textbook is a vital resource for postgraduate and undergraduate students of digital business innovation and transformation by showing how to initiate digital transformation across an organisation it will prepare business owners directors and management of small and medium sized businesses to take strategic advantage of new and emerging technologies to stay ahead of their competition

economic development and urban growth are the contested grounds of urban politics business elites and politicians tend to forge pro growth coalitions centered around downtown development while progressive and neighborhood activists counter with a more balanced approach that features a strong neighborhood component urban politics is often shaped by this conflict which has intellectual as well as practical dimensions in some cities neighborhood interests have triumphed in others the pro growth agenda has prevailed in this illuminating comparative study barbara ferman demonstrates why neighborhood challenges to pro growth politics were much more successful in pittsburgh than they were in chicago operating largely in the civic arena pittsburgh s neighborhood groups encountered a political culture and institutional structure conducive to empowering neighborhood progressivism in housing and economic development policymaking in contrast the pro growth agenda in chicago was challenged in the electoral arena which was dominated by machine ward based politicians who regarded any independent neighborhood organizing as a threat consequently neighborhood demands for policymaking input were usually thwarted besides revealing why the development policies of two important american cities diverged ferman s unique comparative approach to this issue significantly expands the scope of urban analysis among

other things it provides the first serious study to incorporate the civic sector neighborhood politics as an important component of urban regimes ferman also emphasizes institutional and cultural factors often ignored or relegated to residual roles in other studies and expounds on their influence in shaping local politics and policy to add an analytical and normative dimension to urban analysis she focuses on the non elite actors not just the economic and political elites who compose governing coalitions ultimately ferman takes a more holistic and balanced view of large cities than is typical for urban studies as she argues that neighborhoods are an important integral part of what cities are and can be for that reason especially her work will have a profound impact upon our understanding of urban politics

more than 30 experts from the fields of economics and economic forecasting industrial relations geography urban studies social and political science development studies and law evaluate the economic legacy of the 1979 1992 conservative governments
