contributed articles and proceedings presented at seminar on impact of liberalisation and globalisation on rural livelihoods held at hyderabad on may 18 2002

at the nexus of politics and policy development lies persistent conflict over where problems come from what they signify and based on the answers to those questions what kinds of solutions should be sought policy researchers call this process problem definition written for both scholars and students this book explains how and why social issues come to be defined in different ways how these definitions are expressed in the world of politics and what consequences these definitions have for government action

and agenda setting dynamics the authors demonstrate in two theoretical chapters and seven provocative case studies how problem definition affects policymaking for high profile social issues like aids drugs and sexual harassment as well as for problems like traffic congestion plant closings agricultural tax benefits and air transportation by examining the way social problems are framed for political discussion the authors illuminate the unique impact of beliefs values ideas and language on the public policymaking process and its outcomes in so doing they establish a common vocabulary for the study of problem definition review and critique the insights of existing work on the topic and identify directions for future research

individual liberty is ingrained in american culture yet in contrast to this cherished ideal american men were inducted into military service under a system that flourished for more than twenty years before its rationalization was seriously questioned by more than a small minority of citizens analyzing this paradox george flynn provides the first comprehensive look at an institution that managed to sustain political and public favor through two wars before dying out under a barrage of protests during a third placing the american draft within a historical context he shows how social and political considerations determined the character of conscription in the united states the draft developed as it did he argues not mainly because of military needs or strategy but because of political decisions initiated by civilians with nonmilitary agendas explaining why the draft remained relatively immune to political criticism prior to the vietnam conflict flynn chronicles the draft s military and strategic successes and failures in america s mid century wars he shows how major institutions and lobbies representing science education and various professions and religions influenced it and how ultimately and ironically the selective character of the draft eventually made the system inequitable and helped cause its downfall book jacket title summary field provided by blackwell north america inc all rights reserved

for decades political scientists studying the court have adopted behavioral approaches and focused on the relatively narrow question of how the justices policy preferences influence their voting behavior this emphasis has illuminated important aspects of supreme court politics but it has also left unaddressed many other important questions about this unique and fascinating institution drawing on the new institutionalism in the social sciences the distinguished contributors to this volume attempt to fill this gap by exploring a variety of topics including the court s institutional development and its relationship to broader political contexts such as party regimes electoral systems social movements social change legal precedents political identities and historically evolving economic structures the book s initial chapters examine the nature of the court s distinctive norms as well as the development of its institutional powers and practice a second section relates the development of supreme court politics to the historical development of other political institutions and social movements concluding chapters explore how its decision making in particular areas of law or periods of time

is influenced by and influences its socio political milieu these contributions offer provocative insights regarding the court s role in maintaining or disrupting political and economic structures as well as social structures and identities tied to ideology class race gender and sexual orientation the supreme court in american politics shows how we can develop an enriched understanding of this institution and open up exciting new areas of research by placing it in the broader context of politics in the united states

a major empirical and theoretical work that has the potential for becoming a classic in the field sheldon goldman author of the federal courts as a political system this provocative theoretical approach should be of great interest to scholars and students of the federal bench elliot e slotnick editor of judicial politics
